

## Beef-Up For 3rd Battalion

# Commandant Okays Addition Of Battalion Landing Teams

Gen. David M. Shoup, Commandant of the Marine Corps, stated Aug. 9 that his previously announced plan to reestablish six battalion landing teams which were reduced to cadre status in 1959 as a result of manpower limitations was progressing according to schedule.

Five of the battalion landing teams (BLT's) will be reestablished between now and June 30, 1961—one in the 3rd Marine Division on Okinawa, one here in the 1st Marine Brigade, two in the 1st Marine Division at Camp Pendleton, Calif., and one in the 2nd Marine Division at Camp Lejeune, N. C.

The 1st Brigade unit to be brought to full strength is the Third Battalion, 4th Marine Regi-

ment. It presently has only approximately 20 men commanded by Capt. James E. Redmond.

As a full-strength battalion, it will be commanded by a lieutenant colonel.

Meanwhile, a special "stand-by" infantry battalion composed of Marines stationed at Quantico, Va., and the Marine Barracks, Washington, D. C., will be formed Sept. 1, 1960, for deployment with the 2nd Marine Division in event of emergency.

The emergency battalion will be prepared to move out as an organic unit of the 2nd Division on eight days' notice. Marines manning the battalion will continue to carry out their regular duties at Quantico and in Washington. Most are now serving in training billets. The remainder are performing administrative, security, ceremonial and similar support-type duties.

Marine Corps Schools, Quantico, will provide the headquarters and three rifle companies for the stand-by battalion. The Marine Barracks, 8th and Eye Streets, S. E., will contribute one rifle company.

The Marine Corps' manpower ceiling is the same now as it was in 1959 — 175,000. Reestablishment of the battalions was made possible, Gen. Shoup said by a reduction in the number of Marines assigned to the Corps' training bases; support establishment security forces, and Fleet Marine Force support units. Lower personnel turnover resulting from the four year enlistment program, was cited as another reason.

In announcing plans for the reestablishment, Gen. Shoup reiterated his position outlined earlier this year before the Senate Appropriations Subcommittee regarding the strength of the Marine Corps. "With 175,000 Marines, we can carry out all our assigned missions except that of mobilization in the event of general war," said the Commandant. "But a strength of 200,000 would be mandatory to accomplish the mobilization, training, and support so necessary in the event of such a war."

A Marine Corps infantry battalion at full strength numbers about 1125 officer and enlisted

Marines and is organized into a Headquarters and Service Company and four rifle companies. A battalion landing team, which includes an infantry battalion plus reinforcing units, usually consists of about 1,350 Marines

Reinforcing units for the special emergency battalion will be formed in the 2d Division at Camp Lejeune Sept. 1, 1960, thus providing a full BLT combat capability on a maximum of eight day's notice.

## Mokapu Principal Says New School Won't Be Ready

A popular topic for discussion here recently has been "will the new school be completed for the opening of the 1960 school semester, or will the old school be utilized again this year?" Miss Elizabeth Baldwin, Principal of Mokapu School threw some light on the subject this week.

According to the Principal, the new school building will not be completed for the opening of the school semester. Children attending on-station school this year will return to the old building.

The majority of the classrooms are near completion, however, the Administration Building and Cafeteria still have a lot of work remaining on them.

The new school will consist of nine major buildings, all connected with covered passageways. The number of classrooms — 30 — has been dictated by the number of school-age children who are living aboard the Station.

Hawaii's Department of Public Instruction bases its teacher-pupil ratio on a 1-32 standard.

The new school has been designated "Mokapu Second Elementary School," and will hold the numerical designation until the Mokapu school now in use here closes.

According to the latest information available, it is anticipated that the school children will move into the new school sometime late in October.

THE WINNER—Bernadette Oliveria, Queen of the 1960 Navy Relief Hawaiian Roundup and Rodeo, receives a lei and congratulations from 1959 queen Lillas Cambra following the election of the queen and her court last Sunday at Waimanalo's Saddle City. Bernadette will reign over the Labor Day Weekend event at Kaneohe Bay's Truan Arena.

# Seniority Takes Precedence In Staff NCO Promotions

Time-in-grade and time-in-service have emerged as primary factors for promotion in the Staff NCO ranks. However, the ambitious young Marine with outstanding abilities has not been overlooked, Headquarters Marine Corps has announced.

This was the result of a study recently approved by the Commandant of the Marine Corps, General David M. Shoup.

Time-in-grade rates the top position for selection to pay grades E-6 and E-7, while time-in-service takes precedence for selection to E-8 and E-9.

Promotion boards will be instructed to make not less than 90 per cent of their nominations for selection to pay grade E-7 from those considered eligible in the average or above average time-in-grade group. The average time-in-grade factor for each MOS will be computed by HQMC and furnished to the boards prior to the convening date.

This board may make up to 10 per cent of selections on the basis of superior abilities which fully justify these selections from among Marines with less than average time-in-grade.

In the event the board cannot find a sufficient number of qualified personnel to meet the 90 per cent requirement, it must request the Commandant to increase the

authorized percentage of the junior group.

For promotion to pay grade E-6, this percentage factor has been established at 75/25 with the higher percentage coming from those who have average or above average time-in-grade. In this case, the percentage factor was given as a guide only, and the boards would have the authority to deviate from this

figure if, in their opinion, such deviation would be in the best interest of the Marine Corps.

Here again, the study stressed that average time-in-grade was not to be confused with the minimum time-in-grade required for promotion.

When the number of Marines within the above average time-in-grade bracket is insufficient

See SENIORITY on Page 8

## Capt. W. A. Robie

# Veteran Medical Officer Named Brigade Surgeon

Captain William A. Robie, USN, (MC) has assumed duties as Brigade Surgeon, relieving Capt. M. M. Small who has been detached for new duties at the U. S. Naval Hospital, San Diego, Calif.

Dr. Robie reports to Hawaii from the U. S. Naval Hospital at Camp Lejeune, N. C.

Commissioned an ensign, USNR in May, 1941, Capt. Robie served at the USNH, Bethesda, Md., during 1942 and 1943, before being transferred to the USS New Jersey. He served aboard the battle wagon for two years, reporting to

the U. S. Naval Dispensary, Washington, D. C., in 1945.

CAPT. W. A. ROBIE USN

During the period 1948 through 1950, Capt. Robie served at the USNH, Aiea and Tripler Army Hospital. He returned to the mainland to serve at the USNH, Chelsea, Mass., and Charleston, S. C. In 1954, he reported for duty at the U.S. Naval Academy. After two years at the Academy, he was transferred to the USNH at Guantanamo Bay, Cuba, and later to the Naval Hospital at Camp Lejeune, N. C.

Capt. Robie is married to the former Miss Jessie Parker of Rocky Mount, N. C. They have three children, Linda, age 17; Eileen, 14, and William A., Jr., age 12.

The new Brigade Surgeon is a native of White Plains, Md.

## Time Running Out

# PMO Sets September 1st Deadline For Cyclists' White Crash Helmets

Kaneohe Bay Provost Marshal officials reminded local motor bike-cycle-scooter enthusiasts this week that white crash helmets are mandatory effective September 1.

In calling attention to both Marine Corps and COMFOURTEEN orders, the spokesman stated that the helmets are a "must" on board any military installation and, are being encouraged for use in any type of riding off reservations.

Spelling out the details of the orders, officials indicated that the helmets must be white without insignia or other decoration. White or silver colored reflective materials in one-inch bands, how-

ever, may be worn as trim to increase night visibility.

If these visual bands are used, they will extend horizontally around the helmet at the base, and vertically over the top of the helmet from front to back, intersecting the horizontal band.

The order pointed out that, among other things, exterior shells shall be of hard, non-shatterable material resistant to impact and penetration, and must be fitted with a permanently attached, adjustable chin strap that will hold the helmet securely in place.

Effective September 1 all non-helmet wearers aboard the Station will be ticketed.

NEW MOKAPU SCHOOL—WILL IT OR WON'T IT? Classrooms Near Completion—Other Buildings Not

 (Circulation—5,000)

## Editorials

### 10 Paths To Trouble

The Armed Forces Press Service recently offered a "service" to editors of armed forces newspapers that, while it can't be considered as a "local" news story, it does show that service families—like their civilian contemporaries—can be gypped.

Quoting the National Better Business Bureau. AFPS listed the 10 top gyps to beware of in the United States today. The list is measured by the number of complaints received at the Bureau and includes:

- Deceptive drug, device, cosmetic advertising.
- Questionable franchise deals, especially in vending machines.
- Mail-order sale of dubious gadgets and garden supplies.
- Unsound earn-money-at-home schemes.
- High-pressure home-improvement schemes
- Fictitious list and comparative prices.
- Bait adds.
- Unordered-merchandise schemes, especially in charitable appeals.
- Telephone sale of doubtful securities.
- Photography schemes.

There they are. If you have a letter to one outfit offering such service half-way written we suggest you find the nearest circular file and "file" it.

Like our old friend "The Legal Beagle" has said so many times: Look before you leap!

## Chaplain's Corner

### CHARGE IT

By Chaplain Peter I. Ota

Recently I had the rare privilege of receiving an offer from a Credit Card company inviting me to enjoy the benefits of their organization. In the accompanying letter (with the application blank) I was given a run down of all the things I might be able to enjoy . . . and the advantages of paying later. For there is a great deal of convenience attached to Credit Cards and their usage. Our present day life almost demands an establishment of "credit." And it is becoming more and more "fashionable" to "Charge it!"

In all the tempting offers to buy now and pay later, there is hardly ever any reference made to that day of reckoning when the bills must be paid. Someone has coined the phrase, "A credit card is a passport to convenience." But only later is the cost of putting convenience first apparent. People get the idea that you can do almost anything on a credit card.

There is real danger that this attitude may pass over into our spiritual and moral life. Why adhere to any moral laws? No down payment . . . pay later! Have a good time now! But can you recall these words, "Now is the day of salvation"? We cannot live a strong spiritual life on a so-called "passport to convenience." Now is the time to develop Christian character. For there is a down payment of effort and obedience.

Jesus had only rebuke for those who tried to put off his call with no "down payment." Can you not recall the time when a man said to Jesus, "Let me first go and bury my father"? In other words, what he was saying was, "Let's put it off for awhile and let me follow you at my convenience." It was then that Jesus replied, "Follow me, and leave the dead to bury the dead." In other words, "Follow me now."

Perhaps we may conclude with this idea, "There are no credit cards honored in the Kingdom of God."

## Retreat Planned For Protestants At Bellows Field

On Aug. 31 and Sept. 1, the Protestant Chapel will conduct a spiritual retreat for dependent teenagers (12-18 years old) at Bellows Air Force Station. Transportation will depart both mornings at 9 a.m. from Bldg. 1090 and will return from Bellows at 9 p.m. Teenagers attending the retreat are requested to bring sack lunches both days. Certain parents will be asked to help provide a "pot-luck" for the evening meals. Other refreshments and food will be provided by the Chapel.

The theme of the retreat is "Making Ethical Decisions." Activities will include devotions, study and discussion sessions, recreation and games, and campfire fellowship. For registration, please contact the Chaplain's Office, Bldg. 1090 or phone 73126 or 73188.

## Local Credit Union Seeking Addresses

Officials of the MCAS Federal Credit Union have noted that a number of quarterly statements mailed out last month have been returned because of incorrect addresses.

It is requested that members who did not receive their statements may obtain them by stopping by at the Credit Union office near the Station Dispensary. At the same time, these members can also give their current addresses to the Credit Union.

## FREEDOMS FOUNDATION Offers Cash Awards Totaling

# \$9000

## In the 1960 Letter Awards Program For Members Of The Armed Services On Active Duty

### THE SUBJECT "My Vote: Freedom's Privilege"

#### AWARDS

FIRST PLACE \$1000  
 SECOND PLACE \$500  
 FIFTY AWARDS each \$100  
 FIFTY AWARDS each \$50  
 ADDITIONAL MEDAL AWARDS

Every cash award winner will also receive a George Washington Honor Medal.

Top winner of each Service will be invited to participate in the Presidential ceremonies in Washington on 20 January 1961 (subject to approval of Commanding Officer), and will receive his or her award at that time. The next 5 winners, regardless of Service, will be invited to the Awards Ceremony at Valley Forge, Pennsylvania, on Washington's Birthday, 22 February 1961.

#### RULES

1. Submit an original letter no longer than 500 words. Must be non-partisan; not for or against any candidate.
2. Type or write legibly on one side of paper only.
3. Type or print full name, rank serial number, military and home addresses.
4. Deadline for entries is 1 November 1960.

Mail letters to:

**FREEDOMS FOUNDATION**  
 Valley Forge, Pennsylvania  
 U. S. A.

FREEDOMS FOUNDATION is a non-political, non-partisan, non-sectarian organization seeking to promote better understanding of the American way of life

## Immigration Director Says

### NO NATURALIZATION HEARINGS DURING NATIONAL ELECTIONS

Ralph H. Holton, District Director of the Immigration and Naturalization Service in Honolulu announced that final naturalization hearings will not be held in the State of Hawaii Sept. 9 and Nov. 8, due to General Election occurring on Nov. 8.

The Immigration and Nationality Act prohibits petitioners for naturalization from taking the Oath of Allegiance within 60 days immediately preceding the holding of a General Election within the jurisdiction of the naturalization court.

This prohibition also applies to wives and children of members of the civilian employees attached to the Armed Forces of the United States stationed abroad.

Director Holton added that "we do not want anyone to travel to Hawaii to become naturalized and then be disappointed. As the prohibition against naturalization during the period of 60 days prior to a General Election is a matter of law, neither this Service nor the court can make an exception. However, naturalization application from personnel overseas may still be submitted to the United States Immigration and Naturalization Service in Honolulu during the interim."

## STAFF WIVES

By Connie Luedtke

By Connie Luedtke

As a mid-week guess, I'd say we're really going to have a good group for our picnic tomorrow at Bellows Field (Area One). Don't forget, starting time is 11 a.m. and don't forget to bring your own beach mats.

Attention Golfers: The golf clinic will be held at 7 p.m. tonight at the Club House. Don't forget: Your husband can get in on this also.

Election News: Remember, elections are coming up and the Nominating Committee is already on the job. Mrs. Robert Larson is the 1960 Chairman with Mrs. Robert Youngmans, Mrs. Clarence Gifford Mrs. Raymond Davis, Mrs. Gene Hawkins, and Mrs. Marie Buzzelli as assistants.

Don't forget, we do sponsor a ward at the Kaneohe State Hospital. Some of our members will be going out there next month to serve a luncheon. Anyone interested in helping or visiting with the patients are urged to call Mrs. Emory Krotky at 72631.

## CIVIL SERVICE

### BLOOD SERVICE PLAN AVAILABLE

Employees are reminded of the Blood Service Plan offered by the Blood Bank of Hawaii designed to benefit persons unable to donate blood but who might find themselves heavily burdened by the necessity of paying for large amounts of blood.

The plan which operates like insurance works this way:

If you receive blood in Hawaii, all blood bank charges are eliminated.

You do not have to pay any cash or furnish replacement donors.

There is no limit to the number of transfusions.

For blood used elsewhere, charges are either eliminated or substantially reduced.

Here's how you can become a member:

By donating blood or paying cash.

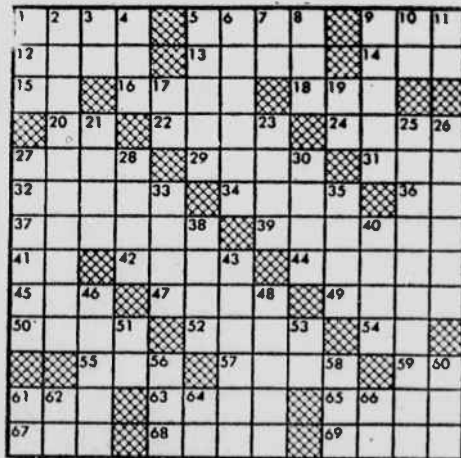

#### THANKS

Mr. Millard McCauley, Public Works Department, and his family desire to thank Station personnel for their kindnesses shown and floral offerings received during their recent bereavement.

**IN APPRECIATION**—MSgt. William H. Tosh, left, receives a copy of the meritorious mast awarded him by Brig. Gen. R. G. Weede, CG, 1st Marine Brigade, on August 12 for his outstanding performance of duty as Brigade Band Leader during the period June 7, 1959-August 10, 1960. MSgt. Tosh left K-Bay Monday for duty with the 1st Marine Division Band at Camp Pendleton, California.

## KAILUA'S NEW AIKAHI SCHOOL ANNOUNCES '60 REGISTRATION

Mr. Arthur L. Nash, newly-nominated principal of Kailua's new Aikahi Elementary School, has announced that this school will officially open its doors for the first time on September 6.

In a letter received by the WINDWARD MARINE early this week, the former vice principal at Mokapu and, more recently, principal of the Wrightstown Elementary School on the Big Is-

land said that interested parents are being urged to register their children prior to September 1.

He said that the Aikahi School district encompasses the area between Kawainui Canal and Mikiola Drive, along Kaneohe Bay Drive and, registration is mandatory if a child has (1) not been enrolled in school in Hawaii last year and (2) if a child has moved into the school district since June 10.

## New Camera Club Announces Plans

A group of 14 enthusiastic shutterbugs attended the kick-off meeting Tuesday evening of the Station's new camera club.

The photographers decided that the two major aims of the new club would be first to increase the individual's knowledge of photography and improve his photographic techniques, and second to hold lectures, demonstrations, and basic photographic courses. The club also hopes to exhibit some of the better works of its members.

Although the initial turnout was by no means small, the club unanimously agreed that, to be really effective, there should be at least 50 members. Therefore, the cry is going out to all interested personnel and dependents to join this group in establishing the new organization.

The camera club, still nameless, is holding its next meeting on Monday at 7 p.m. in classroom #2, Building 267. The main item on the agenda will be to adopt the club constitution.

It was pointed out that, until the new school's buildings are completed, classes will be held at Kainalu Elementary School, 165 Kaiholu St. Because of the area's rapid growth, it will be necessary for some of the classes to be held on a double-shift basis.

Those slated for two-shifts are: Kainalu — Kindergarten and first grade; Aikahi — Kindergarten, first, and second grades.

Mr. Nash emphasized that there will be no loss of time in the solid academic subjects for any child in either school.

The scheduled times for the two-school sessions are as follows:

**KAINALU:** 7:55 to 11:30 a.m.— Kindergarten and first grade. 12 to 3:30 p.m. — Kindergarten and first grade.

**AIKAHI:** 7:55 to 11:30 a.m. — Kindergarten, first and second grades. 12 to 3:30 p.m. — Kindergarten, first and second grades.

## GROUND CONTROLLERS FETED ON 40,000 CONTROLLED LANDING

Lt. Col. Robert Baird, command-officer of Marine Attack Squadron-214, landed his Fury jet here

Tuesday night marking the 40,000th ground controlled approach (GCA) landing to be handled by Marine Traffic Control Unit-62.

**HAPPY LANDING**—Lt. Col. Robert Baird, CO, VMA-214, cuts cake after making Tuesday's 40,000th landing controlled by MATCU-62. From left are: Capt. H. G. Miller, OIC, MATCU-62, SSgt. T. S. Dabelich, duty technician during the landing, GySgt. L. E. Wisnoske, GCA Controller, Lt. Col. Baird and Lt. Col. R. L. Janson, CO, MARS-13.

A GCA landing is generally required during inclement weather or other periods of poor visibility. The pilot's approach and eventual touch-down is directed by experienced technicians using a combination of radar and radio equipment and literally "talk" the pilot down to a safe landing.

All pilots are required to maintain their proficiency in GCA landings.

MATCU-62 is one of eight such units in use throughout the Marine Corps. They provide Marine aircraft units with ground control facilities wherever they may be deployed and serve to augment existing airport facilities at those locations.

The local unit was activated at the Marine Corps Air Station, El Toro, California in 1952 where it handled its first 14,000 landings. It was assigned to Kaneohe in January 1955 and since then has averaged about 50 such landings each flying day.

Capt. H. C. Miller is Officer in Charge of the unit.

# 5th Staff NCO Symposium Opens; Promotions Forecast

Sergeant Major of the Marine Corps, Francis D. Rauber, opened the 5th annual Staff NCO Symposium at Camp Pendleton on Monday with an address designed to inspire the representatives to present beneficial suggestions for the "whole" Marine Corps.

"Let us here this week carefully consider and make only those recommendations that will benefit the Marine Corps as a whole," he said.

His remarks indicated that the Corps' staff NCOs may have to devise other methods of continuing the symposium idea. He stated that the funds necessary to sustain the symposiums may not be available in the future.

He was introduced to the delegates and wives attending by Sgt. Maj. Asa E. Huskey who is assigned to G-1 section, HQMC. Sergeant Major Huskey, symposium coordinator, held that same position at last year's symposium.

In his remarks, Sergeant Major Huskey presented a "rosy" picture for future Staff NCO promotions as he reviewed past and future promotion plans.

He announced the proposed FY61 Staff NCO promotion figures, which are: 60 to SgtMaj.; 150 to MGySgt.; 250 to 1st Sgt.; 750 to MSgt.; 2,400 to GySgt.;

3,900 to SSgt. (E-6) and 5,000 to Sgt. (E-5).

He went on to clarify the position of Headquarters Marine Corps concerning processing a request for a "Twilight Cruise."

Although no Marine Corps directive specifically covers this subject, "It is the Commandant's desire that every effort be made to honor such requests if at all possible," said the Sergeant Major. However, he stated that there are certain requirements which must be met before a request for transfer of this type receives favorable consideration.

These he listed as: a valid military requirement for the MOS and rank of the Marine at the station requested; personnel request-

ing the transfer must not be in receipt of overseas orders or have a control date which indicates that overseas orders would be received prior to transfer to FMCR; applicants must have served a minimum of one year, preferably two, at the present duty station prior to transfer; requests for Recruiting Duty (Bravo Billets), or duty with NROTC Units of Inspector-Instructor Staffs will not be approved for the "Twilight Cruise."

After the remarks by the coordinator the representatives were divided into five discussion groups. They were given instructions on the conduct and organization for business, and the fifth annual staff NCO symposium was officially underway.

## To MGySgt.

## Time-Grade Requirements Abandoned For Some E-8s

Kaneohe Bay master sergeants looking to the future as master gunnery sergeants received a break of sorts last week when Headquarters Marine Corps announced that the time-in-grade requirement for promotion had been thrown out the proverbial window.

According to a recent article in NAVY TIMES, the waiver affects only master sergeants. Master sergeants E-7 and gunnery sergeants E-7 seeking promotion to master sergeant E-8 and first sergeants E-8 trying for sergeant major promotion will have to have two years in grade as of Sept. 30, 1960.

The selection board for these ranks is slated to meet at HQMC Sept. 19.

According to the TIMES article, the normal time-in-grade requirements for master sergeants going to master gunnery sergeant would be two years.

The Marine Corps, however, didn't start promoting Marines to the E-8 rank of master sergeant until December 1958. At that time 75 were given master sergeant stripes.

On the other side of the E-8 rank, the Corps made its first hikes of gunnery sergeants to first sergeant in May 1958. The 667 Marines who were promoted at that time now have the required two years in grade to be considered by the selection board next month for advancement to sergeant major.

Headquarters Marine Corps also said that Marines in E-8 who want to be designated to the opposite rank in their pay grade will also be considered by the board for shifting ranks.

But it said that those who are redesignated will not be considered for promotion in their new rank until next year.

How many Marines the board will select for promotion to the E-8 and E-9 pay grades still has not been determined by the enlisted promotion planners at Headquarters.

In other promotion news, the Marine Corps announced that a board will meet at Headquarters to select staff sergeants and gunnery sergeants E-6 for promotion to gunnery sergeants E-7.

## Fashion 'Parade' Is Presented At Staff NCO Club

A parade of fashions took the Staff NCO Club by storm Tuesday as 12 K-Bay wives modeled daytime and cocktail dresses before 200 guests attending the evening presentation of the Staff NCO Wives Club Fashion Show.

Guests of honor were Brig. Gen. R. G. Weede, CG, 1st Marine Brigade and Mrs. Weede, Col. W. R. Campbell, CO, MCAS and Mrs. Campbell, and Gen. Weede's parents, Dr. and Mrs. G. W. Weede, visiting here from Pittsburg, Kansas.

The group of models was composed of six Staff NCO Wives and six "O" Wives, led respectively by Mrs. Charles Poorman, president of the Staff Wives Club, and Mrs. J. W. Antonelli, "O" Wives Club president.

**FASHION SHOW**—Mrs. Mary Shimpf, left, models a white chiffon cocktail dress while Mrs. Gary Cooper narrates the Staff Wives Club Fashion Show held Tuesday evening at the Staff NCO Club. Attended by nearly 200 guests, the show featured original daytime and cocktail dresses provided by a Kailua designer.

# The '60s -- New Products Mean Progress

**A COMPACT FOREIGN MODEL**—This Marine gun crew, riding on a "convertible mule," tows an Italian-developed 105mm Pack Howitzer to an area for practice firing. The howitzer weighs only 2,860 pounds and breaks down into 16 component parts which can be man-carried.

**MY, WHAT BIG EYES!**—And a strong back, too! Ground crewmen direct an HR25 into position to airlift a 6,000-pound rolling container of fuel at the Landing Force Development Center at Quantico.

**ATOMIC BLAST**—Simulating the after effects of an atom blast, this YRON-1 helicopter pilot wears new protective clothing during tests at the Landing Force Development Center, at Quantico.

**SPACEMAN?**—No, Marine carrying new light flame thrower and suited in protective clothing for ABC warfare.

**SAWED-OFF** — Introducing the "LAW"—light anti-tank weapon. A sawed-off 3.5 rocket launcher with a "bazooka" effect.

**WHOA, THERE!**—This Marine thinks he's seeing things but it's really a ground effect machine now being tested. The main feature: It floats on air!

**A LEATHERNECK OF 1960**—A Marine infantryman with his M-14 rifle; the operator of an ONTOS (anti-tank), and the YRON-1 chopper pilot symbolize the Marine of 1960.

**READY AND RARIN' TO GO**—These Marines are armed with M-14 rifles and M-60 machine guns which soon will be issued to Marine combat units to replace the M-1 and .30 caliber machine gun now in use.

RECOVERY TEAM IN ACTION—A Pacific Missile Range Helicopter No. 2 piloted by Lt. Albert C. Pospisil and recovery crew take off from the deck of the USNS HAITI VICTORY with the encased capsule for delivery to the Air Force. (Photo by B. Vititow, PH2)

# PMR Forces Make History In Retrieving Space Capsule

By JOE GOODE, JO1, USN

The satellite recovery forces of the Navy's Pacific Missile Range added another milestone in the conquest of outer space when the recovery unit of the Pacific Missile Range Representative Hawaiian area, stationed at MCAS Kaneohe, retrieved the DISCOVERER XIII instrumentated capsule from the Pacific Ocean.

Three hours after the 300-pound DISCOVERER nose cone separated from its orbiting vehicle it was in the hands of the PMR recovery forces aboard the USNS HAITI VICTORY. Within 18 hours after pick-up, the capsule was triumphantly delivered to the Air Force, sponsor of the DISCOVERER project and user of the Pacific Missile Range.

The honor of retrieving the first orbited man-made object to return to earth intact went to Lt. Albert C. Pospisil, pilot of the PMR helicopter No. 2; Ltjg Arthur S. Anderson, co-pilot; diver Robert W. Carroll, BM3 and plane captain Clifford C. Allsup, AD1.

Carroll, a slim 5'8½" 150 pound diver became the first person to touch an object recovered from space. Allsup claimed second honors of touching this satellite that was in outer space.

At 1:38 p.m., Pacific time, Wednesday, Aug. 10, on a concrete pad at Vandenburg AFB, a 100,000 pound, 67-foot Thor-

Agena two-stage rocket was launched into orbit around the earth. With this launching the hopes of the PMR recovery forces and project personnel of retrieving the 300-pound capsule were being carried aloft.

The second stage—19 by five feet and weighing 8500 pounds at launch went into polar orbit a few minutes later. The man-made satellite circled the earth at altitudes ranging from 200 to 400 miles, at a speed of 18,000 miles an hour, a total of 17 times.

On the 17th pass above Alaska, a timing device triggered gas jets which pitched the vehicle to a position 60 degrees down from horizontal, and a series of explosive bolts and springs threw the heavily instrumented capsule towards the Pacific Ocean.

Immediately after separation at 1:13 p.m. Hawaiian time, Aug. 11, a retro-rocket in the re-entry vehicle was fired, slowing it and enabling it to assume proper trajectory to re-enter the earth's atmosphere.

Twelve minutes later at 50,000 feet, a pressure switch released a white and orange parachute which slowly lowered the package to earth.

Waiting for this package were the Pacific Missile Range recovery ships, USNS HAITI VICTORY and the USNS DALTON VICTORY, a PMR long range radar-laden WV-2 Super Constellation

and specially equipped Air Force planes which would attempt a mid-air catch of the parachuting capsule.

The capsule fell into the sea some 250 miles northwest of Oahu in a pre-programmed area.

Bendix Corp. technicians aboard the USNS HAITI VICTORY were the first to pick up the capsule's beacon signals. The HAITI VICTORY received the capsule's beacon signals before contact was made by radar aircraft. Upon receipt of these signals, Commander Richard F. Smith, USN, PMR ships control officer, relayed this information to the Air Force control aircraft and immediately vectored the HAITI VICTORY towards the capsule's signal. At the time of signal pick-up, HAITI VICTORY was 102 miles south of the impact point.

Within 80 miles of the capsule, Commander Smith ordered his two recovery force helicopters into the air. At 4:13 Hawaiian time, Lt. Pospisil, pilot of PMR helicopter No. 2, was above the bobbing capsule which was bright orange against the yellow green dye marker. Lt. Pospisil hovered the "chopper" some 10 feet off the water. Draped in a rubber suit with fins and face mask, Carroll leaped into the water. Within eight minutes the capsule was hoisted into the helicopter.

Although he was swimming in sea-swells of four to five feet he had little trouble in preparing the capsule for hoisting. A back-up helicopter, piloted by LCDr William P. Jensen with another diver, Charles V. Evans, BM1, was standing by, but not needed.

With Carroll in the water, plane captain Allsup dropped a line. Carroll then attached the capsule and parachute to it—a winch whirled and at 4:21 p.m. Hawaiian time, history was made.

Thirty-six minutes after pick-up, Lt. Pospisil returned to the deck of the HAITI VICTORY and the MSTS ship's master, Captain Harold Slusher had the HAITI headed for Honolulu at 18 knots.

In a ship to shore radio interview Carroll said "Picking up this capsule was just a regular pick-up during our training operations. After the capsule was hoisted into the helicopter it was a good feeling to know that we made the first DISCOVERER capsule recovery."

Commander Smith, who also participated in the radio conference, stated that "Carroll had no trouble in preparing the capsule for hoisting to the helicopter." He went on to say, "Carroll has spent many hours in practice exercises for this particular job and this recovery was carried out just like another practice operation."

Commander Smith, who coordinated the entire surface recovery operation, went on to say, "I knew that we would get the capsule after positive proof of sighting. The entire crew, Navy, Bendix technicians, Military Sea Transportation Service personnel and U.S. Weather Bureau meteorologists have been in training for this event for 13 months."

Lt. Pospisil commented that "he was elated to be a part of the crew who picked up the nose cone."

Just off the coast of Oahu, early Friday morning, Aug. 12, the recovery helicopter and recovery crew with the encased capsule took off from the HAITI VICTORY's platform and winged towards Hickam AFB. At Hickam the capsule was put aboard a waiting Air Force aircraft and then flown on to the mainland; first stopping at the Naval Air Station, Moffet Field, Calif., then on to Washington, D.C.

## For 'Ground-Pounders' CORPS TESTING NEW PACKS; TRICK RELEASE 'GADGET' EYED

Attention, 1st Brigade infantrymen: In the future, when someone tells you to "take your pack off," you may be able to do it by

## Modern Products Are Attesting To Corps' Readiness

Amphibious combat readiness and modernization are two primary objectives of today's Marine Corps.

Facing the threat of total war, limited war, and potential enemy nations armed with modern weapons systems, the Corps is conducting an extensive research and development program aimed at insuring Marine Corps readiness to execute amphibious operations under a wide range of combat conditions, nuclear and conventional. Men and materiel are geared to the future.

Modification and change have become routine. The object of this activity is to provide today's Marines, and tomorrow's, with the best weapons and equipment U. S. military technology can produce.

The photographs on Page 4 of today's WINDWARD MARINE illustrate some of the weapons and equipment which have been or are in the process of being tested at the Development Center. Some of the items are in an early development stage; others have reached Marine combat units in the field.

just pulling a trick release gadget. According to a recent NAVY TIMES article, the Corps will start testing in September of four new types of packs for the foot-slogging infantryman.

One of the four, says HQMC, will eventually wind up on the backs of ground pounders.

The four to be tested are a battle jerkin; the present haversack but with wider shoulder straps with a trick release and a modified pistol belt; the haversack with only a modified BAR belt, and the Army's new standard load carrier M-1956.

The tests will last about 60 days and will be conducted by each of the three divisions.

The Marine Corps said the only "revolutionary type" pack to be tested is the battle jerkin. It said the battle jerkin is similar to the armored vest, but much lighter in weight.

The jerkin features clips for attaching gear such as canteens, first aid pouches and ammunition.

## Model Teen Class To Hold Graduation

Officials of the Teen-Age Club have announced that the first Model Teen Charm Class has been completed and will graduate during exercises tonight at 7 p.m. at the Teen Club.

Families and friends of the graduates are cordially invited to attend tonight's ceremonies.

A new six-week class will be starting soon, the officials announced, and anyone interested in signing up for the course should contact Mrs. Albert J. Sargenti at 269552 for further information.

HISTORY MAKERS—This PMR recovery team made history in recovering the first man-made object to return from outer space. From left are: Ltjg Arthur S. Anderson, co-pilot; plane captain Clifford C. Allsup, AD1; PMR diver Robert W. Carroll, BM3 and pilot of the recovery helicopter Lt. Albert C. Pospisil. (Photo By B. Vititow, PH2)

## ENLISTED CLUB

TONIGHT  
Happy Hour from 6 to 7:30 p.m.  
SATURDAY

Dance to the music of Jim Kyser and his band from 8 p.m. to midnight in the Main Ballroom. The Country Cousins will be on hand for a western feature from 8 to 12 in the Main Bar.

SUNDAY  
Dinner special: Roast beef. The Chaudettes will be featured in a special variety show which begins at 8 p.m. This is a touring variety show from the mainland and should provide a fine evening of entertainment.

MONDAY  
Movie night: "Cover Up," starring William Bendix at 7:30 p.m.

TUESDAY  
No scheduled activities.

WEDNESDAY  
Movie Night: "Crime Doctors" featuring Doctor Ordway at 7:30 p.m.

THURSDAY  
TV night.

## Russian Language Course Scheduled

Officials of the Kailua Community School for Adults this week announced that registration had begun for a new language course entitled "Russian For Beginners."

According to the announcement, registration is now being continued on a daily basis at the school which is located within Kailua High School. The course in Russian will officially open September 20 and will end Jan. 15.

It was also announced that Gy-Sgt. E-6 Justin Wenger will again handle teaching chores for the Russian Class.

In pointing out class costs, officials stated that this course will cost students \$22. For Marines interested in attending, the Corps will defray all but \$11.25 under the tuition assistance program.

The official also stated that, at least 15 students must sign up in order that the class can open as scheduled.

QUITE A TRICK, FOR A MAGICIAN—The Chaudets, scheduled for a one-night stand at the "E" Club Sunday evening, offer a preview of things to come. They're billed as continental conjurers.

Entries still open for 72-hole full handicap match.

Register now for RC Water Safety Class.

## 'POP' WARNER REGISTRATION HERE MONDAY

It's gridiron time again and all boys 10 through 12 inclusively are reminded that registration for the K-Bay team in the Pop Warner League will be held Monday at Station Theater No. 2. Signup time is 4 p.m. and it is requested that at least one parent accompany each applicant.

ASSgt. (E-5) Garland Longhauser, coach of the K-Bay squad, said that practice will get underway Tuesday in order that a 30-man squad may be selected for the tough schedule ahead.

CWO George P. Garret of the MCAS Medical Department is manager of the team.

A call has also been sounded for Marines who would be willing to help out with the league. Anyone interested in volunteering their help is requested to contact Longhauser at 72816.

The K-Bay footballers will be entered again this year in the Windward League. In addition, the K-Bay team will do battle with Pop Warner teams from other military installations on Oahu.

For the past three seasons the K-Bay team has won the Hawaii Service Championship.

**KING KEGLER**—K-Bay's GySgt. (E-6) Robert E. Clapsaddle ended up as top man in the 1960 Hawaii Marine Bowling Tournament last week with a total pinfall of 2246. In addition, the local keglar took top honors in the open flight with a 227 high game and a 620 high series. (Photo by SSgt. (E-5) G. L. Gill.)

## K-Bay Squad Consolation Game Victor

Pearl Harbor's All Stars defeated the Waialua All Stars 10-3 Saturday afternoon to win the Hawaii LL crown and a trip to the "World Series" at Williamsport, Pa. The Waialua team had defeated the K-Bay All Stars a week earlier for the District No. 1 championship in the "sudden death" series.

In a consolation contest preceding the Championship game at the Kailua LL field Saturday, the K-Bay All Stars defeated the Kauai All Stars, 3-0. Dusty Rhoades handled the mound chores and allowed only a single hit. The stellar K-Bay hurler fanned 11 and swatted a 200-foot homer over the leftfield fence.

## 25 Marines At Camp Perry Serve As Instructors In NRA Junior and Tyro School During Rifle and Pistol Matches

"The Marines sure do know all about shooting," commented 13-year-old Tom Chaney of Tiffin, Ohio, last week as he concluded his shooting instruction at Camp Perry.

The young beginner, one of hundreds of boys and girls from all over the country, echoed the sentiments of most of the beginning shooters in the NRA's Junior

and Tyro school. Instruction ended last Thursday with issuance of certificates to those who successfully completed the course.

Although coaching was provided essentially by civilian NRA instructors, a select group of 25 Marines played a major role in the success of this year's school. The special detachment was drawn from three Corps

commands: Quantico, Camp Lejeune, and Parris Island.

First Lt. James C. Ayers of Camp Lejeune was officer in charge and the only officer with the group.

The unit arrived at Perry Aug. 3 and immediately commenced two days of training for NRA civilian instructors. It was the Marines' job to teach the NRA instructors how to instruct and coach the shooters.

Once the regular school got underway Monday, Aug. 8, the hand-picked Marines took to the rear of the firing line to supervise the coaching by the civilian staff. They also aided and advised the young shooters throughout the four-day school.

Gunnery Sergeant H. J. Woodham of Camp Lejeune, the senior noncom in the detachment, said the Marines pursued their jobs with much enthusiasm.

"These beginners take their shooting real seriously" he said, "You can't help enjoying working with people like this, and we enjoyed every minute of it."

The Marines gave all the demonstrations during the schooling, and many of the lectures. The shooters fired BB guns, CO2 pellet rifles, and .22 caliber rifles.

School ranges were operated by a special support unit from the Marine Range Battalion, under the command of Capt. E. L. Erickson of Quantico.

**ROUGH IN THE FIELD**—SSgt. James M. Henderson, a marksmanship coach from the Marine Corps Recruit Depot, Parris Island, manages to concentrate on target scoring in the presence of some of his petite students during NRA schooling at Camp Perry, Ohio. Henderson was one of 24 Marine coaches who instructed and supervised instruction during the National Rifle Association's tyro and junior marksmanship training courses. The school was part of the 1960 National Rifle and Pistol Matches. (Official Marine Corps Photo)

## K-Bay's Clapsaddle Wins Kegler Crown

K-Bay's GySgt. (E-6) Robert E. Clapsaddle ended up as king of the lanes last week as the 1960 Hawaii Marine Bowling Tournament came to a close. Clapsaddle downed all opposition in the contest with a total pinfall of 2246.

In addition, the local keglar took top honors in the open flight with a 227 for high game and a 620 for high series.

Runnerup to Clapsaddle in the open flight was MSgt. (E-8) Ellsworth Winters who rolled a total pinfall of 2170 on the Camp Smith lanes.

Winters and Cpl. (E-4) Vincent Burkis, also of Camp Smith, captured the open doubles first place award with 4300.

In the "A" Flight, Maj. N. Vinning won the top spot while bowling on the Camp Smith alleys with a total pinfall of 2080. Capt. Cair Wilcox of K-Bay was runnerup with a 2067.

Col. Norman Nickerson and Maj. Vinning teamed up to win

the "A" doubles event with 4063. K-Bay's MSgt. (E-7) Robert K. Lynn won high game honors with a 224. Capt. E. Davis of Camp Smith and Pfc William H. Bower of K-Bay tied for high series in this event, each with a 576.

Camp Smith's LCpl. Tom Deaven won the "B" flight with a total pinfall of 2218 as well as high series with a 636. He also teamed with Pfc C. Urlona of Camp Smith to take the doubles with a score of 4020.

High game of the "B" Flight was rolled by SSgt. (E-5) Lineon J. Carter on the K-Bay lanes. It was a powerful 230.

Runnerup to Deaven in the "B" event total pinfall was Sgt. (E-4) Robert W. Kirk who scored a total of 2111 on the K-Bay lanes.

There was a tie for the "Encouragement Trophy," which is to be awarded to the man rolling the lowest score in the tournament. SSgt. (E-5) Kenneth R. Burns of K-Bay and Cpl. (E-4) Donald Novak of Camp Smith will have to toss a coin to decide this one. Each rolled a 93 game.

## AKU Marines

By SSgt. (E-5) Ron Hamilton

Tomorrow the AKU's are holding another picnic. This time it will be held at the Kaaawa Public Beach. We are to meet at the AKU hut between 9 a.m. and 9:30 a.m. to leave for the beach area and remain there until 4 p.m. Due to the no-air situation, skin diving will be the day's diving. If you're a single AKU and missed the last meeting you are to bring \$1 and your diving gear and catch a ride before 9:30 a.m. Saturday.

There is no Scuba Dive planned for Sunday due to the no-air situation.

Our boat the "AKU" has a 50 horsepower outboard now and should be ready for use by next Wednesday or Thursday.

The AKUs invite all Marines and their dependents to join our club. If you can swim we will teach you how to dive. We meet every Monday evening at 7:30 at the AKU hut in front of the Navy Boat house.

The AKU MARINES now have a new constitution and by-laws effective Aug. 5, 1960.

In short this means, to remain active in the AKU MARINES you must make at least every third meeting. Upon missing three meetings you will be classified as an inactive member and lose your privileges to check out diving equipment.

Currently listed as active members of the AKU Marines are the following:

J. W. Bauer, G. Bibby, J. R. Blackshaw, D. A. Colby, C. W. Cecchi, C. C. Callahan, E. J. Canzonieri, C. T. Glenn, L. R. Dalton, H. Kamahoa, T. McCully, J. M. Moore, J. M. MacEvitt, B. K. Nelson, C. A. Pirie, G. D. Pirie and T. W. Ryan.

Also B. Wettengel, R. Watuck, J. J. Wiese, T. Wingo, G. E. Patrick, F. D. Bennett, F. J. Meier, L. Nickerson, L. R. Miller, K. J. Scott, J. R. Saldeen, A. E. Bales, C. O. Ley, J. D. Douglas, G. B. Frank, and N. D. Barge.

Also D. E. Dellisle, R. J. Hamilton, H. J. Statts, D. T. Delzer, S. Henez, C. A. Fama, M. R. Scelzi, C. W. Choquette, B. L. Skala, B. E. Brewton, W. G. Buehrens, N. Lane, D. J. Kirwan, and D. N. Kirwan.

## Children's Golf Tournament Set At K-Bay Tuesday

Children who have been taking free golf lessons for the past few weeks have been invited to participate in "Jimmy's Kids Tournament." Jimmy Ukauka, K-Bay Klipper Course pro, is sponsoring the event for the embryo linksters.

The tournament is scheduled to be held on the Klipper Course Tuesday beginning at 8 a.m. There will be seven flights, three for boys and four for girls.

First to tee off will be the boys, 13-16 years of age. This will be the only flight to play the entire 18-hole course as all other flights will be for nine holes. There will be 21 boys in the initial flight.

In the second flight will be 20 boys 11 and 12, while 22 will be entered in the boys' third flight for lads 9 and 10 years of age.

Eight girls will be entered in the first feminine flight, slated for those 13 through 16 years of age. The second flight will be for seven young ladies in the 12 year age group, while the same number are scheduled to enter the third flight for 11-year-olds. A like number are expected to enter the fourth flight for girls nine through 10 years of age.

Adults will keep score for the youngsters.

Trophies will be awarded to winners in each flight.

Following the tournament, hot dogs, soda pop and other refreshments will be served the youthful tournament players at the club house.

An entrance fee of one dollar will be charged to help defray the expenses.

According to GySgt. (E-6) Mario Buzzelli, Klipper Course NCO-i-C, the K-Bay tournament will also serve as a screening course.

A group of approximately 30 K-Bay youngsters will be selected to take part in the "Soda Pop Tournament" next Friday at Fort Shafter. The annual links tournament is a 9-hole contest.

# Lejeune Again Wins All-Marine Baseball Title

By SGT. (E-5) TOM BARTLETT

The Hawaii Marine baseball team, runnerup in the Service Section of the Hawaii Major League baseball tournament, will return soon from Camp Lejeune and the All-Marine Baseball Championships.

Oahu's representatives were maltreated from the start in the Tarheel State.

Lejeune, as host of the All-Marine tourney, might have shown some of the famous "southern hospitality" to the visitors from Aloha Land, but coach Hal Glasgow turned thumbs down on the idea.

The opening game was rained out, and the next night, Hawaii faced its host on the diamond. Lejeune won the Marine opener 7-3 with the victors scoring seven times on nine hits while committing three errors.

Hawaii scored three times on six hits while making six miscues.

San Diego faced the Hawaii squad the following night.

Hawaii scored three times in the top of the fifth to outdistance their opponents by two runs. A walk, a single, a fielder's choice and a costly error knotted the score.

A hard hit past the first baseman and another error allowed three Recruitmen to score.

Diego claimed six runs on seven hits with two miscalculations.

Hawaii totaled three markers on seven hits with five costly errors, which eliminated them from the tournament.

Lejeune copped two consecutive games from Diego, 8-2 and 11-2, for their second All-Marine Baseball Championship in as many years.

GRADUATION DAY—Some of the 266 K-Bay children who successfully completed courses in the second session of the Dependents Summer Swim Program here. The "graduation" took place Tuesday at the Enlisted Men's Swimming Pool as hundreds of spectators, mainly proud parents, watched. So far, 900 dependents have received instruction in the program sponsored jointly by the Red Cross and Station Special Services. (Photo by LCpl. M. B. Owens.)

# Marine Reservist Garners Smallbore Championship

A Marine reserve sergeant captured the 1960 National Smallbore Rifle Position Championship and a mixed regular-reserve Marine team took the number one spot in the Metallic Sight Team Matches at Camp Perry last week at the National Rifle and Pistol Matches.

Star among Marine shooters was Sgt. Alan Dapp of Washington, D.C., who this year made good on his fourth try for national recognition with the .22 caliber rifle.

His aggregate score of 1544x78Xs out of a possible 1600 was just six points below the national match record. He did set a new record in the Four-Position 50-Yard Any Sight Match with 396-25X, two points over the old score.

Dapp joined 1stLt. Frank F. Briggs and Capt. Haril W. Newton, of MTU, MCRD, San Diego, and last year's National Smallbore Rifle Prone Champion, reserve Cpl. Walter R. Kamila of Los Angeles, to win the metallic sight team contest for the Marines with a 1592X1600.

In individual matches, Lt. Briggs registered three wins to his credit. He took the 50-yard Metallic Sight Match with a record breaking score of 400-39X.

Despite a bad string of fire early in the week, Lt. Briggs rallied to take fourth place for first master in the regular service class with a 6379X6400 in the prone championship aggregate.

In the position championship aggregate, two tyro national match competitors placed first in their class. Second Lieutenant Jerry L. Lathrop, MCS, Quantico, shot a respectable 1496 to lead the sharpshooters. Cpl. Ronald L. Jenkins, also of Quantico, topped the marksmen with a 1477.

# Junior Bowlers Begin Loop Sat.

In last Saturday's rolloff for averages in the K-Bay Junior Bowling League, high game honors went to Susan Schmidlen with a 174. Pat McManus took high honors among the boys with a 175.

High three game honors went to Miss Schmidlen with 434 while Joe Bekeris topped the boys with 461.

Now that handicaps have been determined, eight teams, with five players each, have been formed. Team captains are Joe Bekeris, Pat McManus, Steve Saylor, Les Hutchins, Steve Yackel, Bill Preston, Bill Hail, and Joe Notch Jr.

The teams will be coed, with at least one girl on each squad.

Action in the league gets underway tomorrow at the K-Bay lanes. Starting time is 9 a.m. The league will play each Saturday at the same time until the finish late in November.

# WOMEN'S SWIM CLASS PLANNED

Miss Dorothy K. Hayes, K-Bay Red Cross assistant field director, has announced that the next phase of the Dependents Swim program will be a class for adult dependents.

Included in the program will be all phases of swimming. It is anticipated that the class will begin next week. All who are interested in signing up for this program are urged to do so immediately.

At present there are 65 adults registered for the coming program.

# LADY LINKSTERS

By Edna Maxwell

Speck tourney results for the Klipper wives held last Thursday were as follows:

"A" Flight winner — Dottie Jahant with 20 points, net 85.

"B" Flight leader — Enid Westcott with 21 points, net 77.

In second place was Mil McDorman with 17 points, net 70.

"Nine Holvers" winner — Shelia Dunn with 11 points, net 39, followed by Tiny Ledbetter with 10 points, net 38.

Congratulations to Sib Walters for breaking a hundred the past week.

Sept. 8 is the date set for the coffee and meeting for all women golfers. It will be held at the "19th Hole" beginning at 8:30 a.m.

# 266 K-BAY YOUNGSTERS FINNISH SECOND SUMMER SWIM COURSE

"Graduation ceremonies" were conducted Tuesday for 266 K-Bay children who successfully completed courses in the Dependents Summer Swim Program. It is the end of the second session of the program, jointly sponsored by the Red Cross and Station Special Services.

It also brought to 900 the number of K-Bay dependents who have received instruction in the program thus far this summer. There were 600 registered in the first session and 300 in the second.

In Tuesday's group were 105 beginners, 60 intermediates, 57 swimmers, 30 junior life saving students, one senior life saving student and 13 water safety aides.

Eight military personnel, led by SSgt. (E-5) Leslie Dalton served as instructors of the group. These included EM1 Carl E. Browning, Sgt. (E-5) David J. Solomon, Cpl. (E-3) Stanley Kowalski, Cpl. (E-3) James MacAlpine and Pfc's Lester Worme, Daniel Scudier, and Tom Brown.

Each group paraded past the bleachers where hundreds of fathers and mothers had gathered to view the hour-long activities at the Station Enlisted Men's Swimming Pool.

Representatives of each group then proceeded to give demonstrations of their water skills. These included jumps by toddlers from the low diving board, swimming of various distances, life

saving techniques, and a demonstration of artificial respiration. Highlight of the event was a water ballet in which 10 girls swam in many trick maneuvers. The precision swimmers were coached by Sgt. Dalton.

Assisting the military instructors were four mothers: Mesdames Irene Johnson, Eleanor Plumb, Jeanne Hibbard, and Marrey Mikalajczak.

Miss Dorothy K. Hayes, K-Bay Red Cross assistant field director, coordinator of the swim program also pointed out that many members of the Junior Life Saving and Water Safety Aides classes also volunteered many hours of their time working with the instructors.

# Answer to Puzzle

# 13 in Water Safety Aides Class First of Its Type in 50th State

Among the many classes completed in the second session of the Dependents Summer Swim Program this week was one that was the first of its kind in Hawaii.

A course for "Water Safety Aides" was successfully completed by 13 K-Bay boys and girls, 14 through 17 years of age. This marks the first time this course has been offered in the Islands.

Sgt. (E-5) David J. Solomon, labeled by local Red Cross officials as "an outstanding Water Safety instructor," was in charge of the course.

The purpose of this program is to help installations with large dependent programs meet instructor needs by enlisting the assistance of capable boys and girls who had either Red Cross Senior or Junior Life Saving certificates.

These aides are carefully selected on the basis of leadership qualities, sense of responsibility

and a desire to give volunteer service.

The objectives of the course are to provide students with teaching methods applicable to aquatic skills in swimming.

These students who have completed the course will assist instructors in clerical work, maintenance, class supervision and instruction.

Due to a shortage of Water Safety Instructors during the second session of the Dependents Summer Swim Program, the Water Safety Aide students filled in as assistants as part of their training program.

Among those who received certificates Tuesday as Water Safety Aides were Michaelyn Mikalajczak, Phyllis Saxton, Renee Sugarman; Kathy Voge, Ralph Kirtz, John Youderian, Michael Keenan, Mark Keenan, and Pat Petko.

Also Richard McManus; Waid Ankerman; Jim Moore, and Eddie Conserci.

FIRST IN HAWAII—Sgt. (E-5) Dave Solomon, Water Safety Instructor, is shown with a group of newly-graduated Water Safety Aides at K-Bay. This marked the first time a group was trained in Hawaii. Kneeling are Renee Sugarman, Phyllis Saxton and Michaelyn Mikalajczak. Second row l. to r. Mark Keenan, Richard McManus, Mike Keenan and Instructor Solomon. Rear row l. to r. Waid Ankerman, John Youderian, Ralph Kirtz, Jim Moore and Eddie Conserci. Absent from the photo are Kathy Vogel and Pat Petko. (Photo by LCpl. M. B. Owens.)

# Gala 'Hometown USA' Show Slated For Station Theater

"HOMETOWN USA" HEADLINERS  
Touring College Show Features Music, Comedy

The touring "Hometown USA" stage show, a sparkling presentation by students of the Alpha Lambda Chapter of Phi Beta Fraternity at the San Francisco State College will open for a one-night-only engagement tomorrow night at Station Theater No. 1.

The show, which has a curtain time of 7 p.m., will be followed by the regularly scheduled evening movie — approximately one hour and 10 minutes after the opening of "Hometown USA."

The cast is composed mainly of men and women of San Francisco State and the show features a musical theme throughout that makes a circuit of hometowns throughout the United States.

The varied background musical theme features everything from ballads to jazz and the variety of songs ranges from the serious to comic.

"Hometown USA" was offered to the Department of the Army

for a gratuitous tour of military installations earlier this summer. Since its acceptance, the eight women and two men have toured Japan, Korea, Okinawa, Taiwan, the Philippine Islands and Hawaii.

## THEATER SCHEDULE

NOTE: Show times at Theater No. 1 are 6:05 and 8:20 p.m. daily. Only one feature will be shown at Theater No. 2 at 7:30 p.m. daily. Matinees begin at 1 p.m. on Saturday and Sunday at Theater No. 1 only.

### TONIGHT

**BROKEN LANCE** — Stars Richard Widmark and, for all we know, could either be the saga of a medieval tournament joust or the trials and tribulations of a javelin thrower. Probably is neither but, as we normally say, take your pick. Rated excellent, however, and is fit fare for adults and youths. Runs for 96 minutes.

### SATURDAY MATINEE

**JOURNEY TO THE CENTER OF THE EARTH** — This stars Pat Boone and, for all intents and purposes, this is all we know. You can bet that somewhere in the midst of the running time, Pat will find a way to get a song across.

### SATURDAY

NOTE: The touring stage show "Hometown USA" will be held at Station Theater No. 1 at 7 p.m. The regularly scheduled movie for this night will follow the one hour and ten minute stage show.

**13 FIGHTING MEN** — Stars Carole Mathews and will be preceded by three short subjects, one of which will be the late news. The feature flick is rated very good for the entire family and will run for 94 minutes.

### SUNDAY MATINEE

**13 FIGHTING MEN** — No, you haven't read things wrong. Last night's feature has become today's matinee which will give you a chance to let the kids see it if they were left behind last night.

### SUNDAY

**PORGY AND BESS** — If you haven't seen this one before or, if you have and you want to hear some outstanding music, don't miss one of George Gershwin's top musical shows. Stars Dorothy Dandridge and a host of others and has been rated as one of the top movies of all times. Rated superior for adults and youths and runs for two hours and 10 minutes.

### MONDAY

**LOVE IS A MANY SPLENDORED THING** — If you're still in the mood for another good musical (we think) try this one with Jennifer Jones. We'll bet six against five that the movie title will be heard in song form at least once during this 102 minute show. Rated excellent for the entire family.

### TUESDAY

**SINK THE BISMARK** — Stars Dana Wynter and represents the

efforts of the British Navy in sinking the German ship named Bismark. This is another entry in the excellent category and is also rated for the entire family. Runs for 95 minutes.

### THURSDAY

**VISIT TO A SMALL PLANET** — Jerry Lewis, a citizen of another planet, has been studying earth via a television type of instrument and, after futile attempts, finally realizes his ambition by making an ethereal journey to our planet in a space ship. Believing the Civil War is still in progress, he arrives in proper costume for a masquerade ball at Fred Clark's Virginia home. Clark, a news commentator, makes Lewis an honored guest, not knowing that he is from another planet. Lewis gets himself enmeshed in the romance of Clark's daughter, Miss Blackburn, and her fiancé, Holliman. Lewis arouses the anger of his leader on his native planet who reduces Lewis' powers of phenomena which changes the situation insofar as he is concerned on earth. Should be a laugh riot. Rated for adults and youths and runs for 85 minutes.

### WEDNESDAY

**FOUR FAST GUNS** — Stars Martha Vickers, is rated fair for adults only and will be preceded by selected short subjects. Runs for 90 minutes.

## Offer Philatelists Deep Freeze Covers

Stamp collectors who want to obtain covers postmarked in Navy post offices at Byrd and South Pole Stations in Antarctica, may do so by sending envelopes to the CB Center located at East Greenwich, R.I.

All covers must be mailed in time to reach East Greenwich by Oct. 15. They will be postmarked during the Antarctic winter night and returned during the first months of 1962. Working conditions prohibit processing the volume of philatelic mail received during the summer operating season.

Persons desiring postmarks from Byrd and South Pole Stations may send addressed envelopes with U.S. postage affixed to: DEEP FREEZE Philatelic Mail, U.S. Naval Construction Battalion Center, Davisville, East Greenwich, R.I.

### On Sale Soon

## New Revised Guidebook for Marines Offers Many Modernized Chapters

As new as tomorrow, as factual as today and as traditional as yesterday is the Seventh Revised Edition of the Guidebook for Marines.

Why the seventh revision? Well, it's simple say the Guidebook editors. The Marine Corps is constantly revising its orders and directives to bring training up to date. Recognizing this, the LEATHERNECK Association, which publishes the Guidebook, started a year ago to bring out a more timely edition.

The Guidebook for Marines still has the same cover design that Marines have seen for years, but inside it is strictly modern. The 60-mm mortar, now obsolete, has been replaced with a chapter on the 81-mm mortar.

Nuclear warfare and the bayonet chapters have been given a major overhaul and the first aid department has the latest life-saving techniques incorporated.

Illustrations, photos and text throughout the book have been given the modernization treatment.

LEATHERNECK staff photographers worked for over three months to get the more than 350 new pictures found in the latest Guidebook. Subjects posed were from Headquarters Battalion, Henderson Hall and Marine Corps Schools, Quantico.

Technical aid for the publication came from G-3, HQMC and Training and Test Regiment and Schools Demonstration Troops, MCS, Quantico.

The Guidebook for Marines will soon be on sale at Marine Exchanges here and is available through the LEATHERNECK Bookshop, P. O. Box 1918, Washington 13, D. C., for \$1.50.

## Seniority

Continued from Page 1

from which to select these percentages, the board is authorized to reduce the time-in-grade requirement to insure that existing vacancies are exceeded by at least 15 per cent, to allow for competitive selection.

The study pointed out that, although time-in-grade and time-in-service were factors in promotion, they were not the only considerations. Fitness reports, test results, performance on independent duty, assignment as a drill-instructor, or as a recruiter, awards, growth potential, leadership qualifications and the specific requirements within each MOS are additional factors. Physical condition was also stressed as a contributing factor for promotion. Boards will be informed that a high GCT score, in itself, is not a reason to favor a man for promotion.

## Unit Reps Named

# NAVY RELIEF SUGGESTIONS SOUGHT BY LOCAL CHAPTER

The Enlisted Advisory Group, Hawaiian Auxiliary, Navy Relief Society, desires suggestions, comments and observations from station and tenant enlisted personnel concerning Navy Relief services.

The Group is responsible for investigating welfare problems, within the scope of the Society, recommending: areas requiring relief, or additional relief, not now provided for; improvements in the methods of providing services; areas of service not required or within the scope of other organizations and steps to better public understanding of the aims, services and limitations of the Navy Relief Society.

If you have any suggestions, comments or observations, give them to your member of the group. The members are: Charles L. Saperstein, AK1, NAS, Barber's Point; John G. Devlin, YN2, Naval Communications Station; Paul C. Neal RNC, CincPacMlt; L. S. Andreoletti, HMC, COM14 District Medical Office; Jack E. Hoffman, SKCP1, Staff, DesFlot-Five; Philip E. Flieger, SF1P1, Submarine Base; Herbert Levandowski, SFC, Naval Station; Calvin North, MSgt., Marine Barracks, Pearl Harbor and James Earle, GySgt. E-6, Kaneohe, MCAS.
