PURPOSE

This Style Guide provides a standard method of writing captions and providing complete metadata for DoD imagery. This publication will help all personnel involved in the creation of official DoD imagery to write and edit captions that are clear, concise, meet DoD style standards and capture an accurate historical record.

This publication is written for all producers, editors and users of visual information (VI). It demonstrates how to address military terms describing Service members, equipment, places and entities recorded by DoD camera operators, created by DoD graphic artists, or written about by DoD journalists. The DoD Captioning Style Guide is designed to supplement The Associated Press (AP) Stylebook (reference b) and pertains specifically to DoD-specific issues not addressed by the AP. The Associated Press Stylebook remains the primary style reference for caption writers.

This publication applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities and all other organizational entities covered within the parameters of DoDI 5040.02.

Summary of updates and changes

This edition of the DoD Captioning Style Guide incorporates many changes reflecting the evolution of digital means of capturing metadata associated with Department of Defense still and motion imagery products. As digital cameras and systems evolve, old-fashioned means of conveying metadata are rendered obsolete.

Most notably, the requirement for slates and Form DD2537 associated with motion imagery are eliminated, effective immediately. The Captioning Motion Imagery chapter in previous editions has also been eliminated; the still imagery captioning and metadata chapters have been updated to reflect applicability to still and motion products.

Furthermore, the release status of a given still or motion image is no longer included in the caption credit line; the release status must be included in the public release instructions (see Chapter 5, Still and motion imagery metadata).

Chapter 1, Matters of style:
- combat rubber raiding craft
- corporals course
- Daesh/Da’esh/Daish
- ISIL
- LCM

- replenishment-at-sea
- ROTC, Junior ROTC (change)
- service member (change)
- submarine
- West Point
- World War I, World War II
- more information on U.S. Navy ship types

Chapter 3, Captioning still and motion imagery:
- Removes requirement to include release status in photographer credit line.
- Removes requirement for submitting DD2537 with motion imagery.
- Removes requirement for including slates with motion imagery.

Chapter 4, Keywording:
- Controlled vocabulary

Chapter 5, Still and motion imagery metadata:
- Updates to VISION ID, Keywords, Image Source, Base/Location, Command Shown, Service Shown
- Revised guidance for Release Status, Release Authority and Release Instructions

This chapter provides the correct style for commonly used terms within DoD captions. The list is by no means comprehensive; if a term does not appear below, refer to *The Associated Press Stylebook* or *Webster’s New World College Dictionary* for the appropriate style and spelling, the *National Geographic Atlas of the World* for place names, or to the Service-specific fact sheets for the correct spelling of aircraft, vehicles and equipment (see Chapter 10, Additional resources, on page 50).

**abbreviations** Only use abbreviations on second reference; the abbreviation must be in parentheses after the first reference. Note: The only exceptions to this are Navy and Marine Corps aviation squadrons (see page 17), NATO, SEAL, USO and abbreviations covered in the AP Stylebook.

**aboard** Use *aboard* when referring to people in, on or entering a ship or aircraft. Do not use *aboard* to describe being on a land base.

> U.S. Sailors eat breakfast aboard the guided-missile cruiser USS Vella Gulf (CG 72) in the Mediterranean Sea June 4, 2014.

**Afghan cities** See Table 6, Afghan provinces, on page 23 for the proper spelling for several major cities in Afghanistan.

**Air Force One** Any U.S. Air Force aircraft carrying the president. The term is a call sign that applies only when the president is aboard the aircraft. The main aircraft serving in this capacity is the VC-25A.

**Airman, Airmen** Capitalize when referring to members of the U.S. Air Force; not capitalized when referring to members of foreign air forces.

**alongside** One word.

**American flag, U.S. flag** Note *flag* is lowercase.

**amphibious assault ship** Do not capitalize, even when referring to a specific ship. For example: *U.S. Sailors and Marines man the rails of the amphibious assault ship USS Nassau (LHA 4).*

**Anzac** Capitalize, but do not use all caps. *Anzac* stands for the Australian and New Zealand Army Corps of World War I. Anzac Day is celebrated annually by both nations April 25; U.S. Service members are often present at these celebrations.

**Bambi bucket** Do not use. See *helicopter bucket.*

**battalion landing team** In unit names, capitalize it, followed by a comma and the unit’s full name.

Although Civil Air Patrol members work closely with the Air Force and they hold rank within Civil Air Patrol, they are not Airmen. CAP is acceptable on second reference.

civilian titles Do not use courtesy titles such Mr., Mrs., Miss, or Ms. unless requested by the named person. Other formal titles such as Dr., Sen. or Gov. should be used where applicable. Do not use such titles on second reference unless necessary to differentiate two people with the same last name.

**first lady** Per AP, it’s not a formal title, therefore not capitalized.

**flight line** Two words.

**foreign object debris, foreign object damage** Items that are picked up from a flight line or flight deck before flight operations are foreign object debris. Foreign object damage results from debris that has impaired an aircraft. FOD is acceptable on second reference as long as the distinction between debris and damage is clear.

flag, carried as the standard of a smaller (company- or platoon-sized) military unit. Do not confuse a guidon with a larger unit’s flag or colors.

**-hawk helicopters** Note exact spelling, spacing and capitalization: UH-60 Black Hawk, HH-60 Pave Hawk, VH-60 White Hawk, SH-60 Seahawk, MH-60 Seahawk, HH-60 Jayhawk. Note: “Knighthawk” is not the proper name for the MH-60 Seahawk. See Table 3, Military aircraft and vehicles, on page 21.

**home port/homeported** The term home port is two words, while homeported is one word.

The ship is headed for its home port of San Diego.
The ship is homeported in San Diego.

**hometown** Do not include the hometowns of Service members in captions.

**hospital ship** Do not capitalize. For example: The hospital ship USNS Mercy (T-AH 19) was originally an oil tanker. Note: This is a Military Sealift Command ship, therefore a hyphen is acceptable in the hull number. See hull numbers, Military Sealift Command.

**howitzer** Lowercase. Not a proper noun.

**hull numbers** Include hull numbers in parentheses after ship names on first reference. United States Ships (USS) and U.S. Coast Guard Cutters (USCGC) are not hyphenated; U.S. Naval Ships (USNS) with a classification beginning with “T” get a hyphen between the “T” and the remaining letters, but not between the letters and the numbers. U.S. Army vessel (USAV) hull numbers are hyphenated.

**Humvee** When referring to a high-mobility, multipurpose wheeled vehicle (HMMWV), Humvee is acceptable on first reference; the word is capitalized. It is not necessary to spell out the entire term or use the abbreviation. However, the abbreviation can be used in keywords.

*loadmaster* One word.

*local* Use this word only when it is necessary to differentiate a local leader or organization from a foreign one. Most of the time it will be unnecessary. In the following example, the use of the word adds nothing to the meaning of the sentence, as is demonstrated by removing it.

> U.S. Soldiers talk to local Iraqi citizens at a local market in Baghdad.

> U.S. Soldiers talk to Iraqi citizens at a market in Baghdad.

In the following sentence, however, the word adds context:

> Local leaders and charitable organizations have joined the U.S. effort to provide disaster relief to affected areas.

*locations* Follow AP style rules when listing geographic names, directions and regions. The names of airports, hospitals, etc., should not be listed like cities. For example: *Beaumont Airport, Texas*. There is no such city in Texas, so the correct way to refer to this in a caption is *Beaumont Municipal Airport in Beaumont, Texas*. See here, at *sea*.

**loose/lose** *Loose* means not tight, while *lose* means to misplace something or to fail to win.

> The lug nuts were loose, causing the Humvee to lose its wheels.

> *U.S. Army Staff Sgt. Salvatore Giunta*, a recipient of the Medal of Honor, smiles as he and his family meet with Secretary of Defense Robert M. Gates at the Pentagon in Arlington, Va., Nov. 17, 2010. Giunta received the nation’s highest military honor for rescuing two members of his squad during an ambush on his platoon in Afghanistan in October 2007.

*military operations on urban terrain* *MOUT* is an out-of-favor term; the preferred term is *urban operations* (*UO*). The term *MOUT* is still in limited use, however, and may be used when referring to a specific *MOUT site* or *MOUT city*, but should not be used in the following senses: “… train for military operations on urban terrain …” or “… conducts military operations on urban terrain training.” See *urban operations*.

*Military Sealift Command* Most MSC ships carry the designation USNS (United States Naval Ship) and do not require *Military Sealift Command* in the description, as USNS implies Military Sealift Command.
However, some ships carry SS, MT or MV designators and do require clarification they belong to MSC. Furthermore, if an MSC helicopter is described in the caption, make it clear it belongs to MSC. Most MSC ships carry the prefix “T-” before their hull numbers. See **hull numbers**.

*The dry cargo ship USNS Wally Schirra (T-AKE 8) transits alongside the aircraft carrier USS Nimitz (CVN 68) in preparation for an underway replenishment in the Pacific Ocean Aug. 7, 2014.*

*A Military Sealift Command aviation logistics support ship SS Wright (T-AVB 3) transits the Atlantic Ocean June 7, 2013.*

**predeployment** No hyphen.

**preflight** Per AP.

**rank, rate** When used with a person’s name, uppercase the rank and use AP rank style (see Table 1, Military rank abbreviations, on pages 18 and 19). When not used with a name or names, ranks appearing in captions are lowercase and are not abbreviated. For example: **U.S. Marine Corps staff sergeants participate in a training exercise**.

(Note: When writing Navy and Coast Guard ranks, use the rate before the name. For example: **U.S. Navy Boatswain’s Mate 1st Class Pete Rodriguez** instead of **U.S. Navy Petty Officer 1st Class Pete Rodriguez, a boatswain’s mate**. This differs from the Associated Press Stylebook.)

**rappel, rappelling/repel, repelling** To **rappel** is to use ropes to lower oneself from a high place, such as a cliff, building or helicopter. To **repel** is to fend something off. See table on page 11)

Sailor, Sailors Capitalize when referring to members of the U.S. Navy; not capitalized when referring to members of foreign navies.

**service member** The term is two words; service is no longer capitalized.

U.S. service members help clean up in New York City after Hurricane Sandy.

**ship names** Use the definite article the before a ship name, or ship type preceding a ship name. Also use the full name of the ship (without the USS) on second reference. Do not use the personal pronouns she or her.

**sideboys** One word.

**sight/site** A sight is something that is seen or is worth seeing, or a device that helps the eye to aim or find something. A site is a location. See examples on the next page.

**simulation, simulated** Indicate when injuries, explosions and other events are simulated for training purposes.

**Soldier, Soldiers** Capitalize when referring to members of the U.S. Army; not capitalized when referring to members of foreign armies.

**South Korea** Use this style when referring to the country, its people and military personnel in captions.

U.S. Soldiers and South Korean marines conduct marksmanship training at Camp Casey, South Korea, June 10, 2012.

**Southwest Asia** Both words are capitalized.

**special operations forces** Use this term to describe U.S. special warfare units or members of those units when their exact service or unit affiliation is not clear, or when special warfare units of multiple services are conducting joint operations. Do not use special operator or commando.

**submarine** Spell it out, do not abbreviate as sub.

**task force** Use lowercase unless referring to a specific named or numbered task force.

**taxi/taxis/taxiing/taxied** Used to describe the movement of aircraft on the ground other than taking off or landing. Don’t use the phrase taxis/taxiing on a runway if the aircraft is not actually on the runway.

fewer than are used with quantities. See over/more than and the Associated Press Stylebook fewer, less entry.

warfare qualifications (Navy) Do not use Navy warfare qualifications (SW, AW, etc.) when writing a Sailor’s rating in captions or keywords.

warfighter One word; use lowercase.

- .50-caliber, 9 mm
- M190 105 mm howitzer
- M4 carbine, M16 rifle, M9 pistol
- GBU-12 Paveway II laser-guided bomb

West Point Use the proper name and location of the Army’s academic institution: the U.S. Military Academy at West Point, N.Y.
**Military unit names**

Use uppercase only when referring to the name of a specific unit. Use the full name of the unit on first reference, and the acronym on all subsequent references. Include the acronym only if the term is used more than once within the caption. In that case, spell out the name and then include the acronym in parentheses. (See Table 2, Force structure, on pages 20 and 21 for the force structure of the services.)

*It is the responsibility of the photographer in the field to confirm the correct name of a military unit depicted in imagery and caption.*

When placing Service members, ships, aircraft or units in a specific place, use the following terminology:

- A Service member is *stationed on* or *stationed at* a base; *with* or *assigned to* a unit or ship. (Do not use *from*, as that implies hometown or place of birth.) The preferred term for a person physically located on a ship is *aboard*.
- A ship is *based* or *homeported* at a specific place.
- An aircraft *belongs to* or is *assigned to* a particular unit and is *deployed with* that unit to a certain location. It is *stationed at* a base or is *stationed at* or *stationed aboard* a ship; it is *deployed with* or *operating from* a ship.
- A unit is *stationed at* a particular base and is *deployed to* a certain location or *deployed with* a larger unit. Squadrons are *stationed at* Air Force bases, air bases or air stations. Navy and Marine Corps air wings and other units may be *deployed with* ships.

**Air Force** Abbreviate Air Force units using standard acronym rules; note if it is a National Guard unit. List units from smallest to largest. In most cases, simply naming the squadron or wing will suffice. Numbered Air Forces are spelled out: Ninth Air Force.

**Army** Abbreviate Army units using standard acronym rules; note if it is a National Guard unit. List units from smallest to largest. Refer to Table 2, Force structure, on pages 20 and 21.

Army units can be tricky. It does not suffice to say that a Soldier simply belongs to *Alpha Company, 1st Battalion*, as there are a multitude of Alpha Companies and 1st Battalions throughout the Army. Be sure to get the unit’s regimental, brigade or division affiliation; in other words, make sure a precise, unique unit name is listed.

**Army:** Numbered armies (e.g., *First Army*) can generally stand alone if the Soldiers depicted are assigned to various units within the numbered army or it’s a wide shot of a numbered army event.

**Corps:** Corps (e.g., *XVIII Airborne Corps*) can generally stand alone if the Soldiers depicted are assigned to various units within the corps or it’s a wide shot of a corps event.

**Division:** Divisions (e.g., *1st Cavalry Division*) can generally stand alone if the Soldiers depicted are assigned to various units within the division or it’s a wide shot of a division event.

**Brigade/Brigade Combat Team:** Most brigades/brigade combat teams numbered lower than 5 are part...
of a larger division. For example, each active-duty division has a 1st brigade combat team, so be sure to list
the division affiliation (e.g., 1st Brigade Combat Team, 82nd Airborne Division). There are a number of
active-duty and National Guard standalone brigade combat teams, and they generally can be listed without a
division. However, if it’s a National Guard unit, be sure to list the state it’s affiliated with. (e.g., 30th Heavy
Brigade Combat Team, North Carolina Army National Guard.)

**Regiment:** Do not use the shorthand for these units. For example, instead of writing 1/120 Infantry,
write out the full name: 1st Battalion, 120th Infantry Regiment. Always list the subordinate unit (e.g., 1st
Battalion, 2nd Squadron) before the name of the regiment. While the Army generally does not use the
regimental command structure like it used to, the regimental heritage is kept to maintain the history and
heraldry of many units.

**Battalion/Squadron:** Most combat arms (i.e., infantry, artillery, cavalry and armor) battalions and
squadrons belong to a numbered regiment, which must be listed in the caption. (e.g., the 2nd Squadron, 14th
Cavalry Regiment, 2nd Brigade Combat Team, 25th Infantry Division.)

Many combat support and combat service support battalions do not have a specific regimental affiliation, but
it’s best to list the brigade and/or division to which they belong. (e.g., the 82nd Brigade Support Battalion,
3rd Brigade Combat Team, 82nd Airborne Division).

**Company/Troop/Battery:** Companies starting with a letter always belong to a numbered battalion and
regiment, which will be listed in the caption as well. Spell out such company names using the phonetic
alphabet. (e.g., Charlie Company, 1st Battalion, 120th Infantry Regiment, 30th Brigade Combat Team,
North Carolina Army National Guard.) NOTE: Some company-level units use non-standard nicknames
(e.g., “Killer Company”). Be sure to get the full, proper name of the unit.

---

**Joint/combined** The following list shows the correct format of some common joint and/or combined
organizations and how to abbreviate them. According to Joint Publication 1-02, *Department of Defense
Dictionary of Military and Associated Terms*, **joint** is defined as, “Connotes activities, operations,
organizations, etc., in which elements of two or more Military Departments participate;” **combined** is
defined as, “A term identifying two or more forces or agencies of two or more allies operating together.”

- Combined Joint Task Force-Horn of Africa (CJTF-HOA)
- Combined Task Force 150 (CTF 150)
- International Security Assistance Force (ISAF)
- Civil-Military Cooperation (CIMIC)

**Marine Corps** Formats for Marine Corps units and their acronyms appear below. List units from
smallest to largest.

**Aircraft wing:** The Marines are assigned to the 2nd Marine Aircraft Wing (MAW). The 2nd MAW
deployed from Marine Corps Air Station Cherry Point, N.C., in support of Operation New Dawn.

**Aircraft Group:** U.S. Marines with Marine Aircraft Group 11 listen to a weekend safety briefing at Marine
Corps Air Station Miramar, Calif., June 6, 2014.

**Combat logistics battalion:** The Marines are deployed with Combat Logistics Battalion (CLB) 6 in
support of Operation Enduring Freedom. CLB-6 is based at Camp Lejeune, N.C.
Marine expeditionary force: The Marines are assigned to II Marine Expeditionary Force (MEF). II MEF deployed from Camp Lejeune, N.C., in support of Operation New Dawn.

Marine expeditionary unit: The Marines are assigned to the 31st Marine Expeditionary Unit (MEU). The 31st MEU was participating in bilateral exercises while aboard the amphibious assault ship USS Essex (LHD 2).

Regiment: Do not use the shorthand for these units. Instead of writing 1/7 Marines, write the full name: 1st Battalion, 7th Marine Regiment.

Regimental combat team: The Marines are assigned to Regimental Combat Team (RCT) 1. RCT-1 deployed from Camp Pendleton, Calif., in support of Operation Iraqi Freedom.

Squadron: Spell out the full name of the squadron on first reference. Since the full names and abbreviations of squadrons do not follow normal acronym rules of assignation, include squadron abbreviations **even if used only once**. The Marines are assigned to Marine Transport Squadron (VMR) 1. VMR-1 assisted in the search for a downed aircraft near Jacksonville, N.C. See page 16 for aviation squadron abbreviations.

Special Purpose Marine Air-Ground Task Force Note hyphenation

**Navy** Formats for Navy units and their acronyms appear below. List units from smallest to largest, where applicable.

Activities: Spell out the full name of the naval activity on first reference and capitalize only when part of a proper name. For example: Naval Station Rota, Spain. On second reference, abbreviate as follows: NAVSTA Rota.

Detachment: Do not abbreviate. The Sailors are assigned to Detachment 5, Explosive Ordnance Disposal Mobile Unit 2.

Fleet: When referring to a numbered fleet, always use numerals and precede with U.S. For example: U.S. 7th Fleet.

Naval mobile construction battalion: On first reference, spell out and use a numeral. Use the acronym on second reference. **U.S. Sailors with Naval Mobile Construction Battalion (NMCB) 1 construct a school in Honduras. NMCB-1 is participating in exercise New Horizons.**

Ship: List the type of ship (e.g., destroyer, aircraft carrier), full name of the ship and hull number (in parentheses) for each ship on first reference. On second reference, drop the ship type, USS and the hull number. Use the definite article the before the ship’s name. Do not use the personal pronouns she or her. All ship names appear in regular type, not in all caps. See **hull numbers** and **ship names**.

*U.S. Sailors man the rails as the aircraft carrier USS George Washington (CVN 73) departs Yokosuka, Japan, June 27, 2011. The George Washington was embarking on a six-month deployment.*

**Current ship types:** aircraft carrier, guided-missile destroyer, guided-missile cruiser, littoral combat ship, mine countermeasures, submarine, amphibious assault ship, amphibious transport dock, dock landing ship, coastal patrol, amphibious command, afloat forward staging base, mobile landing platform.

Squadron: Spell out the full name of a squadron on first reference. Include the abbreviation whether or not the squadron appears again in the caption. See page 17 for aviation squadron abbreviations.

*U.S. Navy Strike Fighter Squadron (VFA) 97 was deployed aboard the aircraft carrier USS Carl Vinson (CVN 70). During the deployment, VFA-97 maintained a perfect safety record.*

Table 2, Force structure

The following table provides the basic force structure of the four Services, listing units from smallest to largest groupings of Service members. Other organizational groupings do occur within each Service. This table is designed only to act as a guide to help the writer list unit designations within a caption. Only capitalize elements (e.g., brigade, platoon, wing, etc.) when used as part of a unit name.

U.S. Navy

The Navy does not list unit designations in the same way as the other Services. While a Sailor may be assigned to a ship, which belongs to a squadron, task force or carrier strike group, and in turn falls under a fleet, not all of those levels need to be listed within a caption. If a Sailor is part of a ship-based aviation unit, be sure to list it.

Identify the ship or onshore unit to which a Sailor is assigned. Also identify lower-level unit demarcations, such as squadrons or detachments.

Identify the strike group to which a ship is assigned only if it is currently deployed with the group.

Chapter 3
Captioning still and motion imagery

The ABCs

Well-written, informative and useful captions begin with the submitter and his/her unit.

NOTE: While most of this chapter deals with still captions, the basic rules of style and content apply to motion captions as well. The descriptive information in motion captions will necessarily be broader and less specific, since the caption must describe more than a single image. Provide a general description of the units and specific subjects, equipment used, the event taking place, location and date(s).

To write an effective caption, remember the ABCs of captioning: accuracy, brevity and clarity.

Accuracy. Ensure every piece of information within the caption is accurate and complete. This also includes ensuring the captions are grammatically and stylistically accurate and that they adhere to the guidance contained in this guide and the Associated Press Stylebook. An accurate caption helps ensure an image is newsworthy, is of historical value and can be more easily retrieved from databases.

Brevity. When writing a caption, be certain every word is necessary to tell the story of the image. The caption should describe precisely what is seen in the image. Captions must convey a great deal of information in a few short sentences, so they must be written concisely to maximize their effectiveness. Do not use 15 words where five will do.

Clarity. To be understood by the end user, a caption must be clear in both intent and expression. Select language to make certain the reader will understand what is happening in the image. Remember that the audience for DoD imagery is global. Construct captions that can be understood by a nonmilitary reader.

The 5 Ws

When gathering information to include in a caption, keep the following questions in mind: who, what, when, where and why. All questions must be answered to accurately communicate the story of a still image or video clip.

Who Who or what is the subject of the image?

• If the subject of a sentence is a person or persons, provide the rank, first and last name, title and military unit for each person.

• List units from smallest to largest. (e.g., U.S. Marines assigned to Kilo Company, 3rd Battalion, 1st Marine Regiment, 1st Marine Division clean weapons at Camp Pendleton, Calif., June 7, 2012.)

• When identifying named Service members, include the name of the Service to which he or she belongs. (e.g., U.S. Army, U.S. Navy, U.S. Air Force, U.S. Marine Corps, U.S. Coast Guard)

• If it’s a group of Service members or an unidentified person, use the appropriate singular or collective noun associating them with their particular branch of service (e.g., Soldier/Soldiers, Sailor/Sailors, Airman/Airmen, Marine/Marines, Coast Guardsman/Guardsmen). NOTE: Do not use the name of the Service in conjunction with the associated noun, such as “U.S. Army Soldier” or “U.S. Marine Corps Marine.”

• Every effort should be made to identify the subject of a photo. People appearing in the background need not be identified unless they are essential to the story of the image.

If the subject of the image is an object, provide the equipment name and model, name and ship hull number, or name and model of the aircraft or vehicle. Include both the name of the object (e.g., C-17 Globemaster III) as
To find the proper way to list a particular vehicle, weapon system or aircraft, refer to fact sheets available on Service-specific websites (see page 50). Also, see the list of selected vehicles in Table 3, on page 21, and the list of selected weapons in Table 4, on page 22.

**What** Describe the action captured by the imagery.

Use active voice when describing the action. When writing in active voice, the subject is doing something, while in passive voice, something is being done to the subject. To change from active to passive voice, make the object of the sentence (person or thing acting on the subject) the subject and vice versa.

When describing the *what*, do not over-describe the action; let the image speak as well. For example, look at the following image and read the two sample captions.

In the first example, the *what* is “checks the status of an entry control point using radio communications.” In the second, it is simply “checks the status of an entry control point.” Looking again at the image, nothing is lost by using the shorter description of the second caption. The information given in the first caption is apparent in the image itself.

**When** Provide the date and, if pertinent, the time of day when the image was captured. Include the date within the caption. Do not use datelines, which are headers placed before the start of the caption, often containing the date and location of the image.

Use the following format: Aug. 21, 2011. Spell out months March through July and abbreviate months August through February.

When writing just a month and year with no day, do not abbreviate the month: Feb. 27, 2011, but February 2011.

**Where** Provide the geographic location as well as the name of the base, facility or organization, if applicable. Consult the Associated Press Stylebook entry on *datelines* to determine if a city stands alone in captions.
• If there is no city, give a region or general area (e.g., near the Syrian border or off the coast of Southern California).

• If the image was captured on a ship, provide the ship name as well as where it is moored or underway. For example: off the coast of ... or underway in the Pacific Ocean.

• If it is an undisclosed location, state that within the caption and metadata. Try to add an identifiable geographic region, such as in Southwest Asia or in the U.S. 7th Fleet area of responsibility.

• Do not use the words “here” or “at sea” in place of a location or a geographical region in a caption.

Spell out state names when they stand alone within the caption. Use abbreviations when paired with a city or base/installation. See Table 5, State names and abbreviations, on page 22 for a list of state abbreviations.

**Why** Explain the purpose of the event, exercise or operation depicted in the image. This gives context to the image and answers the question as to why the image matters. The explanation should be brief, in most cases no longer than one sentence. See sample captions on page 28.

### Constructing a caption

The first sentence contains the 5 Ws and is always written in the present tense using active voice. A caption describes the moment the image is captured, not what came before or after, so the first sentence will be written as if from that moment.

Subsequent sentences should almost always be written in past tense. This sentence gives background information on the image. It explains why the image is significant and provides context. When providing background information, include information that explains the significance of the action in the image.

**Example:**

U.S. Air Force Tech. Sgt. John Smith demonstrates proper CPR techniques during his unit’s safety day at MacDill Air Force Base, Fla., July 5, 2011. Smith’s unit was training in advanced first aid techniques in preparation for a deployment.

Examine the following image and sample caption:

![Image of Marines boarding a landing craft](image_url)

U.S. Marines with the 31st Marine Expeditionary Unit board Landing Craft Utility 1627 in the well deck of the forward-deployed amphibious dock landing ship USS Germantown (LSD 42) Feb. 10, 2012, off the coast of Thailand. The Germantown was underway in support of Cobra Gold 2012. Cobra Gold is a regularly scheduled joint/combined exercise designed to ensure regional peace and strengthen the ability of the Royal Thai armed forces to defend Thailand or respond to regional contingencies. (U.S. Navy photo by Mass Communication Specialist 1st Class Johnie Hickmon)

In the caption, the background sentences describe why the Germantown and the 31st Marine Expeditionary Unit were off the coast of Thailand (for exercise Cobra Gold). While this is important information, it does not give background information on the action in the image, which is Marines boarding a landing craft utility. A more appropriate second sentence would explain why the Marines were boarding the craft. Presuming we know why, the caption could read:

U.S. Marines with the 31st Marine Expeditionary Unit board Landing Craft Utility 1627 in the well deck of the forward-deployed amphibious dock landing ship USS Germantown (LSD 42) Feb. 10, 2012, off the coast of Thailand. **The Marines were preparing to go ashore in Thailand as part of exercise Cobra Gold 2012.**

### Additional rules of construction

Define all acronyms on first use within the caption. Spell out the term, and then place the acronym in
parentheses. Use only the acronym on second use.

- **Do not use acronyms for terms used only once within the caption.**
- Do not use apostrophes when using a plural acronym. For example: MREs, not MRE’s; F-15s, not F-15’s.
- Refer to the Department of Defense Dictionary of Military and Associated Terms for official definitions of abbreviations and acronyms (see Chapter 10, Additional resources, on page 50). Acronyms need not appear in the DoD dictionary to be used in a caption.

**Avoid the use of jargon.** Explain terms and practices that are not commonly known outside of military circles. Remember to write for a nonmilitary audience. For example, do not use shorthand references to military units unless they have been previously defined within the caption.

**Do not editorialize.** Stick to the facts as presented by the image and gathered at the scene. In the following example, the first caption contains editorializing.

Incorrect: An Iraqi family enjoys a picnic in a park near the Baghdad Zoo in the Karkh district of Baghdad March 30, 2007. Scenes like this one are becoming more prevalent in the city as life slowly returns to normal.

Correct: An Iraqi family shares a picnic in a park near the Baghdad Zoo in the Karkh district of Baghdad March 30, 2007.

**ID by placement.** When identifying people in an image, use the rule of three; provide the full name and rank and/or title of every person when there are three or fewer people in the image. It is not necessary to individually identify everyone if there are four or more people present, although there may be some cases (such as with high-level officials) in which that would be appropriate.

Indicate position in a caption using commas, not parentheses. The following examples demonstrate two correct ways to indicate position.

**No quotes.** Do not quote people within the body of a caption. Only use quotations in a press release, feature story or news article.

Do not include the names of minor dependents of military members. Do not include the names of U.S. citizens, including Service members, receiving medical treatment without the express written consent of the patient.

**Photographer’s credit**

Include the photographer’s credit at the end of the caption. See examples below.

NOTE: The release status of the image or video no longer goes in the credit line; it is put in the Release Status field (see page 35).

- If the photographer is a member of the Army National Guard or Air National Guard, indicate it in the credit line, but do not use the state or territory name: (U.S. Army National Guard photo by Pfc. Bob Smith)
- If the photographer is from a non-U.S. service, credit it as a DoD photo, listing the photographer’s rank, name and service affiliation.

DIMOC has created a new repository of keywords and other metadata, called a controlled vocabulary, which can be accessed through dimoc.mil. The purpose of the controlled vocabulary is to more completely standardize keywords and certain sets of metadata in order to make images archived by DIMOC more easily accessible. The Controlled Vocabulary will be integrated into DVIDS and other digital imagery management systems in the future.

Use the 5 Ws to determine the most prominent elements within the image or video. Often, the who, what and where will be appropriate choices.

When selecting keywords for imagery, ask the following questions and choose keywords based on the answers:

- What is the message of the image or video?
- What person or object has the biggest impact?
- Why would someone want the image or video?
- What other major elements or concepts appear in the image or video but not in the caption?

Choose several keywords (no more than six) that best describe the visual content of the image or video. Using appropriate keywords will ensure that imagery is more searchable, making it more readily available to the end user. Do not use photographer’s names or units, locations, or anything irrelevant to what is shown in the image itself.

**Example 1.**

In this example, patrol is the primary action of the image. Therefore *Patrol* is a keyword. However, the concept of the image is training. *Training* is also a keyword. Inserting *Patrol* as a keyword may appear redundant, since the word appears in the caption, but it allows for broader search capability and image accessibility if it is included.

Keywords for Example 1: **USMC; Marine; Patrol; 3rd AAB; IED; M4 carbine; Training; Jungle warfare**

**Example 2.**

A search looks for each individual word in a keyword for a match, therefore the keyword for an image of an F/A-18E Super Hornet aircraft needs to be its full technical name: F/A-18E Super Hornet. This ensures that no matter the terms the user enters into a search (i.e., *18E, Hornet*) the search will return results with those words or phrases.
in the keywords. It is important to also include *aircraft*, otherwise a user searching simply for *aircraft* will not return all the appropriate images.

The keywords for Example 2: *F/A-18E Super Hornet; F-22 Raptor; Aircraft*

### Standard format for keywords

<table>
<thead>
<tr>
<th>Correct</th>
<th>Incorrect</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>F/A-18E Super Hornet; Aircraft</em></td>
<td><em>F/A-18E; Super; Hornet; Aircraft;</em></td>
</tr>
<tr>
<td><em>M1A1 Abrams tank</em></td>
<td><em>M1A1; Abrams; Tank;</em></td>
</tr>
<tr>
<td><em>M14 Enhanced Battle Rifle</em></td>
<td><em>M14; Enhanced; Battle; Rifle;</em></td>
</tr>
</tbody>
</table>

1. Treat the keyword field similarly to the caption field; proper spelling and capitalization is important.
   - For example: *M1A1 Abrams tank; USAID; Secretary of Defense*

2. Write all technical names as directed by the U.S. Military Services’ fact files and yearbooks.

3. Keywords are separated by semicolons (the final keyword does not get a semicolon after it).
   - For example: *M1A1 Abrams tank; F/A-18E Super Hornet; Aircraft*

4. Keywords may be phrases or full names and in these instances should not be separated.

5. The Photographer’s Service is a keyword, but only in its acronym/abbreviated form.
   - For example: *USMC; USA; USN; USAF; USCG; RAF*

6. Words that are NEVER keywords:
   - Photographer’s name (in any variation), unit or VISION ID
   - Release status
   - Classification status
   - Use of the image (i.e., publication)

### Guidelines for selecting keywords

1. Consider and select from the broad categories list first. See the sample categories in Sample Keywords on page 32.

2. What is the concept of the image?
   - Don’t forget to add the theme/message of the image.

3. What is in the image?
   - Vehicles? Weapons?
   - Technical names for all types of vehicles (e.g., aircraft, ships, tanks, etc.) and all weaponry are keywords.
   - Ship names (including the hull number), classes and types are keywords.
     - For example: *USS Dwight D. Eisenhower (CVN 69); Nimitz-class; Aircraft carrier*

4. Who is in the image?
   - Titles and occupation fields (not ranks) are keywords. This applies only to U.S. personnel.
     - For example: *Human intelligence collector; Drill instructor; Logistics Specialist; Ship’s Boatswain; Platoon leader; Designated marksman; Infantryman; Rifleman*
   - There are four individuals whose title and name will always be keywords. These four people are the President, Vice President, Secretary of Defense and the Chairman of the Joint Chiefs of Staff.
5. Does the image represent an event?
   - Is the event an operation or an exercise?
   - If so, the name of either the Operation/Exercise is not a keyword. These names are to be entered in the Operation/Exercise metadata field.
   - If not, then the event’s full name is a keyword.
     » For example: 11th Annual Air Force Marathon

6. Are there phrases, units, etc., that have acronyms/abbreviations that are not written in the caption? If so, the acronyms/abbreviations are keywords.
   » For example: International Security Assistance Force is written in the caption, but the acronym is not. ISAF is then a keyword.
   » For example: The image is from Operation Enduring Freedom. OEF is then a keyword.
   » For example: 6th Squadron, 1st Cavalry Regiment, 1st Brigade Combat Team, 1st Armored Division is used in the caption once. Therefore, 6-1 CAV; 1st AD are keywords.
Sample Keywords

The following list contains numerous examples of keywords used in imagery metadata. By no means is this a comprehensive list, but many common concepts, activities, events, people, weapons, ships, vehicles and other equipment are listed here. *If an item has words in parentheses next to it, those words are meant to describe what the keyword means, and are not part of the keyword itself.*

Chapter 5
Still and motion imagery metadata

The style guidance contained in this publication also applies to other metadata associated with still and motion images. It is important to ensure this information is both complete and accurate to ensure every image is as accessible as possible and of the utmost value to the end user.

Excepting abbreviations, all entries should be in regular text, not in all capital letters. The tables on pages 37-39 list the metadata fields and their corresponding names and placement in common imagery management software programs. These guidelines apply if you are using a video editing program that allows for the modification of video metadata.

Visual Information Record Identification Number (VIRIN)
(Reference: Department of Defense Instruction 5040.02, Enclosure 6, October 27, 2011)
Assign each image a unique VIRIN. A VIRIN consists of 16 alphanumeric characters separated by hyphens into four fields organized in the alpha (A) numeric (N) format YYMMDD-A-XXXXX-NNNN. A fifth field of two characters can be added for imagery generated by photographers working for a foreign government.

Field one, the first six characters, is the date the imagery was taken, in YYMMDD format.

Field two, the seventh character, represents the Service of the photographer.
- A: Army, uniformed member, civilian employee or contract employee
- D: Department of Defense, uniformed member, civilian employee, or contract employee of the Department of Defense not falling into one of the other categories
- F: Air Force, uniformed member, civilian employee or contract employee
- G: Coast Guard, uniformed member, civilian employee or contract employee
- H: Department of Homeland Security, not including Coast Guard
- M: Marine Corps, uniformed member, civilian employee or contract employee
- N: Navy, uniformed member, civilian employee or contract employee
- O: Any person not falling into another category, including foreign nationals
- S: Department of State
- Z: National Guard (either branch), uniformed member or civilian employee, even when on federal active-duty status or deployed overseas

Field three is either the individual photographer’s VISION ID or a unit’s DVIAN (see boxes below).

### VISUAL INFORMATION IDENTIFIER (VISION ID)
(Reference: Department of Defense Instruction 5040.02, Enclosure 7, October 27, 2011)
Field three (LLNNN): The two-letter, three-digit VISION ID of the image originator, which is assigned by DIMOC through https://vipro.defenseimagery.mil. All DoD photographers and videographers must have a VISION ID. However, a person does not need to be formally qualified as a VI specialist to have a VISION ID.

If the VI specialist is a member of a foreign government, use an assigned DVIAN if possible.
**U.S. Service members, civilians or contract personnel shall NOT use ZZ999.**

### DEFENSE VISUAL INFORMATION ACTIVITY NUMBER (DVIAN)
(Reference: Department of Defense Instruction 5040.02, Enclosure 8, October 27, 2011)
Field three (LNNNN): The DVIAN is a one-letter, four-digit identifier used in VIRIN of a motion image produced by a group of people on behalf of a unit, or images taken by U.S. personnel without a VISION ID. Email dma_heat@mail.mil for assistance in obtaining a DVIAN for your unit.

The DVIAN will not be used to obfuscate the ID of an individual who solely produced a VI asset, for B-roll, or for imagery shot by a solo drone operator.
Field four, the final four digits, identifies unique images and are assigned in the order in which the images were shot.

Field five, to be used by photographers working for a foreign government, will use the two-letter ISO 3166 Alpha-2 code used to identify their respective government. For example, a Belgian government photographer who submits an image to a DoD organization will use a VIRIN such as 160323-O-ZZ999-1002-BE.

The ISO 3166 Alpha-2 codes can be found at https://www.iso.org/obp/ui/#search/code

Date Shot
Enter the date the image was captured (not the date it was submitted to DVIDS or DIMOC, if different from the date it was shot). The date must match what is reflected in the VIRIN and the caption. **Note:** Ensure all cameras are set to the correct local date and time before conducting a shoot.

Operation/Exercise
This field should only be filled out with the name of a formal operation or exercise. Operations, for example, include Inherent Resolve and Freedom’s Sentinel; examples of exercises include Balikatan, Cobra Gold 2015 or Anakonda 16. Do not include the words Operation or Exercise in this field. If the image(s) are not part of a named exercise or operation, leave this field blank.

Headline (optional)
This is an optional field found in the DVIDS submission portal, and is intended to briefly describe a specific event associated with a larger news story or series of images, for example, “82nd Airborne Division change of command,” “USS America (LHA 6) commissioning” or “35th Fighter Wing Airmen train in survival skills.”

Caption
Ensure the caption is complete and adheres to the standards in Chapter 3. The date in the caption must match the Date Shot and VIRIN fields. Include the photographer credit line at the end of the caption.

Keywords
A keyword is a word or phrase that signifies the meaning or main ideas of an image. The primary function of keywords is to improve accessibility of the imagery. **Limit keywords to no more than six.** Do not include the photographer’s name, locations or anything irrelevant to what is in the image.

DIMOC has established a controlled vocabulary for keywords that covers such topics as equipment, career fields, activities, events, ships, etc. The list, which will grow and evolve with new terminology, is managed at DIMOC and can be viewed the website listed above under “Department of Defense Keywords.” See Chapter 5 for more information on Keywords.

Command Shown
Enter the geographical combatant command where the photo was taken (USPACOM, USNORTHCOM, USEUCOM, USENTCOM, USAFRICOM, USSOUTCOM). For imagery from Combined Joint Task Force-Operation Inherent Resolve or relating to anti-ISIL operations, use CJTF-OIR; for imagery under Combined Joint Task Force-Horn of Africa, use CJTF-HOA.

Service Shown
Select one of the choices below for the Service depicted in the image, based on the main subject or subjects of the image. This is not always the same as the service of the photographer. This information is essential for tracking imagery in the joint environment.

United States Army; United States Air Force; United States Navy; United States Marine Corps; United States Coast Guard; Army National Guard; Air National Guard; Coalition; DoD Civilian; Multiservice; Foreign military; Other
**Base/Location**

Enter the city, base, ship, installation or other specific location at which the image was captured, not the location to which the photographer is assigned and/or deployed. For example, if the photographer is assigned to Fort Bragg, N.C., but the image was taken in nearby Fayetteville, enter *Fayetteville* in this field. If there is no specific-named location, filling out the Country/Area field will suffice.

**State/Province**

Enter the U.S. state or foreign province (or other subdivision) in which the image was captured, if applicable.

**Country/Area**

Enter the country, area or major body of water in which the image was captured. Areas will usually be bodies of water such as the Persian Gulf or regions such as the Arctic Circle. Should it be an undisclosed location, enter that information here as well. See the online controlled vocabulary for a list of acceptable list of countries and bodies of water. If the location of the image is withheld, enter *undisclosed location* here.

**Release Status**

The status will either be **Released** or **For Official Use Only (FOUO)**. Remember, only Released imagery may be submitted through DVIDS.

- **FOUO:** If an image is FOUO, it must be submitted directly to DIMOC, and can not be posted on any form of social media until it is fully released. See Chapter 6 for instructions. FOUO imagery must include a justification in the Release Authority field.

- **Secret:** If an image is Classified Secret, it must be submitted directly to DIMOC via SIPR. See Chapter 6 for instructions. Imagery classified Secret must include a justification in the Release Authority field.

**Release Authority**

Enter the name, duty position, phone number and/or email address of a person authorized in writing by his or her command to release images or deem them FOUO.

- **In the case of FOUO or Secret imagery**, the release authority must include justification for designating an image as such (see table at right).

The justifications should come from exemptions 2 through 9 the Freedom Of Information Act (FOIA) exemptions list on page 36. Exemption 1 only applies to classified imagery.

**Photographer (VI Professional) Rank/Name**

Include the rank/rate and name of the photographer.

**Photographer (VI Professional) Home Unit**

Include the home unit of the photographer (e.g., *3rd Marine Division* or *1st Combat Camera Squadron*). Do not enter the name of the shooter’s service (e.g., *U.S. Marine Corps*).

**Photographer (VI Professional) contact information**

Include the photographer’s email (preferably an official .mil or .gov account) and a phone number.
Caption Editor
Include the rank and name of the person who wrote the caption. This can be the photographer or another person who reviewed the caption and metadata before it was submitted.

FOIA exemptions for FOOU and classified imagery

- **Exemption 1:** Information that is classified to protect national security.
- **Exemption 2:** Information related solely to the internal personnel rules and practices of an agency.
- **Exemption 3:** Information that is prohibited from disclosure by another federal law.
- **Exemption 4:** Trade secrets or commercial or financial information that is confidential or privileged.
- **Exemption 5:** Privileged communications within or between agencies, including:
  - Deliberative Process Privilege
  - Attorney-Work Product Privilege
  - Attorney-Client Privilege
- **Exemption 6:** Information that, if disclosed, would invade another individual’s personal privacy.
- **Exemption 7:** Information compiled for law enforcement purposes that:
  - 7(A). Could reasonably be expected to interfere with enforcement proceedings
  - 7(B). Would deprive a person of a right to a fair trial or an impartial adjudication
  - 7(C). Could reasonably be expected to constitute an unwarranted invasion of personal privacy
  - 7(D). Could reasonably be expected to disclose the identity of a confidential source
  - 7(E). Would disclose techniques and procedures for law enforcement investigations or prosecutions
  - 7(F). Could reasonably be expected to endanger the life or physical safety of any individual
- **Exemption 8:** Information that concerns the supervision of financial institutions.
- **Exemption 9:** Geological information on wells.

Chapter 6
Submitting imagery to DIMOC

DIMOC is the official records manager for DoD visual information (VI), ensuring DoD visual history is preserved through regular transfers of VI to the National Archives and Records Administration.

Before selected images are submitted to DIMOC using one of the methods described below, **photographers, videographers and their respective units have the primary responsibility** for ensuring each submitted image meets the captioning and metadata standards described elsewhere in this guide.

Per DoD Instruction 5040.02, all imagery, with associated captions and metadata, must be submitted to DIMOC using one of the methods described below, regardless of release status. This includes images posted to DoD and non-DoD web pages and social media outlets such as Twitter, Facebook, Flickr and Instagram.

While many military commands post selected imagery on social media sites such as the ones described above, posting imagery on social media is not a substitute for sending imagery to DIMOC.

**Submit only high-resolution images using the methods below; low-resolution imagery is of little historical value.**

**DVIDS (Released only)**

Submitting to the Defense Video & Imagery Distribution System (DVIDS) is by far the most common and most expedient way of submitting unclassified, released imagery. DVIDS forwards all imagery directly to DIMOC 30 days after receiving it.

**DVIDS accepts only properly released, public domain imagery.** Do not send unreleased, copyrighted or For Official Use Only (FOUO) files.

In order to submit imagery to DVIDS, you must have an account with DVIDS. This can be accomplished by visiting https://www.dvidshub.net and clicking on Register. Be sure to choose your organization or unit and choose a Priority of Effort, which can be tailored for your organization’s marketing needs. Once you are registered, find the DVIDS Direct tab at the top of the DVIDS page to begin the submissions process.

- Up to 2GB of imagery can be submitted through the web interface in a single session.
  - Ensure each imagery file is populated with a caption and the appropriate metadata.
  - Also complete the DVIDS metadata screen for each asset.
- DVIDS also offers FileZilla to facilitate FTP/SFTP submissions. Information can be found at the DVIDS Direct page.
- DVIDS customer service can be reached at (877) 384-3724.

**Email or AMRDEC SAFE direct to DIMOC (Released and FOUO)**

If you can’t access or transmit to DVIDS, or you have FOUO imagery to send to DIMOC, please call the DIMOC Joint Combat Camera Center (JCCC) at (301) 833-4938 or DSN (312) 733-4938. The

**DIMOC JCCC: (301) 833-4938, DSN (312) 733-4938, JCCC@mail.mil**

**AMRDEC SAFE: https://safe.amrdec.army.mil/safe**
JCCC staff will issue specific instructions for transmitting the images via regular email or AMRDEC SAFE, which allows for the secure transmission of up 25 items or 2GB of data for download elsewhere.

**FOUO imagery direct to DIMOC**

For Official Use Only (unclassified, but not released for public consumption) imagery can be transmitted to DIMOC via web upload at https://insight.defenseimagery.mil. Contact the Joint Combat Camera Center for assistance. **Such imagery should be transmitted to the JCCC, as it can be used in DoD internal briefings.**

**Classified (Secret) imagery direct to DIMOC**

Still and video imagery classified up to Secret can be transmitted via SIPR for storage and internal (DoD) use until the imagery is declassified and released. Contact the Joint Combat Camera Center at the phone or email listed on page 40.

**Physical assets and non-current imagery**

DoD-owned physical assets and previously unsubmitted digital imagery must be sent to DIMOC for preservation and digital archiving. This includes all forms of media, such as film, slides, prints, tapes, negatives and audio, as well as digital imagery stored on hard drives, and other electronic media.

In many instances, when units or commands relocate or are inactivated, or when facilities are closed, large amounts of older physical and/or media are discovered in storage areas. These assets are still DoD property and must be handled appropriately, per Federal law and DoD regulations.

**Physical assets must be shipped to DIMOC for further processing and archiving. Do not scan physical media and send it to DVIDS or JCCC. Do not ship physical assets without contacting DIMOC first.**

To initiate the transfer of physical imagery or digital storage devices to DIMOC, please read about DIMOC’s physical imagery program (see box above) and contact the DIMOC archivists. An archivist will discuss the nature of the imagery and issue instructions for completing the transfer.

Chapter 7
Grammar review

Good captions are difficult to write without a solid foundation in the principles that govern sentence construction. The following review of basic grammar rules will help writers and editors produce clear, effective captions.

Sentence structure

A sentence is a group of words that contains a subject and a predicate. It is a complete thought that can stand alone. The subject is a noun or noun phrase, and is what the sentence is about. In captioning parlance, it is the “who.” The predicate is what is being written about the subject. This includes the verb, or action, of the sentence as well as other people or objects that the subject acts upon. When writing any sentence, begin with these building blocks: subject-verb-object. Place all supplementary information around this fundamental structure.

U.S. Soldiers patrol a neighborhood.

In the above sentence, the subject is “U.S. Soldiers” and the predicate contains both the action of the sentence, “patrol,” and the object of the action, “a neighborhood.”

Avoid sentence fragments. A sentence fragment is an incomplete sentence; it is usually either missing a subject or a verb or is not a complete thought. Fragments usually occur when captioning images that at first glance appear to show no action (e.g., images of equipment, geographic locations or local color). Assign an action, the “what,” to the image to ensure a complete sentence.

Fragment: The aircraft carrier USS Ronald Reagan (CVN 76) during a training exercise in the Pacific Ocean June 22, 2011.
Sentence: The aircraft carrier USS Ronald Reagan (CVN 76) participates in a training exercise in the Pacific Ocean June 22, 2011.

Avoid run-on sentences. A run-on sentence contains two or more independent clauses (word groups that can stand alone as a sentence) that are joined without either a semicolon or a comma and a linking word.

Run-on: The Sailors returned home from a six-month deployment and they celebrated when their ship moored pierside.

Fix the sentence with either a comma/linking word or a semicolon:
- The Sailors returned home from a six-month deployment, and they celebrated when their ship moored pierside.
- The Sailors returned home from a six-month deployment; they celebrated when their ship moored pierside.

Do not start a sentence with a number. The only exception to this rule is when starting a sentence with a year; however, avoid this when possible. Usually it can be fixed by adding a word at the start of the sentence.

Incorrect: 1st Marine Division is engaged in operations in the Anbar province of Iraq.
Correct: The 1st Marine Division is engaged in operations in the Anbar province of Iraq.
Punctuation

Apostrophes Use apostrophes to indicate possession or in contractions; do not use to indicate a noun is plural.

| Incorrect: unexploded mortar’s outside Kabul |
| Correct plural: unexploded mortars outside Kabul |
| Correct possessive: unexploded mortars’ disposal date |

With acronyms, use an apostrophe only to indicate a possessive. Add a lowercase s to make an acronym plural.

| Plural: The COs met to discuss the mission. |
| Possessive: At the CO’s request, they discussed the mission. |

Remember that its indicates possession, while it’s is a contraction of it is.

Commas in a series The appropriate use of commas makes it easier to read a sentence. Comma placement is determined partially by grammar rules and partially through judgment.

Use commas to separate each element in a series. For example: The flag is red, white and blue. Use a comma before the conjunction (known as the serial comma) only when necessary to avoid confusion, such as in the following example: The vessel performs utility boat functions such as submarine support, moving barges and floats, and personnel transfers.

If any of the elements in a series contain commas, use semicolons instead. For example: Secretary of Defense Chuck Hagel; U.S. Army Gen. Martin E. Dempsey, the chairman of the Joint Chiefs of Staff; and Secretary of State John Kerry met to discuss defense policy.

Commas and clauses When joining two word groups that can stand alone as separate sentences, use a comma before a coordinating conjunction or use a semicolon with no conjunction. Do not use a comma if one of the clauses is dependent (does not stand alone as a complete sentence).

| The building is finished, but it has no furniture. |
| The building is finished; it has no furniture. |
| The building is finished but has no furniture. |

Use a comma after introductory clauses or phrases. Such clauses usually tell when, where, why or how the main action of the sentence occurs. For example: After sharing a meal, the Airmen will resume training.

Not every clause that appears to be independent requires a comma. For example: Jake does not realize that his injury is serious and that he will have to undergo therapy to get better.

Note that a ship’s name is not a clause; do not separate it from the sentence with commas.

Commas and adjectives Separate coordinate adjectives with commas (coordinate adjectives modify the noun in the same way). For example: She was a strong, loyal, well-trained Marine. Each adjective describes the Marine.

Do not separate cumulative adjectives (cumulative adjectives must stay in order to make sense). For example: Three large brown camels moved toward the convoy.

How to tell the difference? Put the word “and” between each adjective and reverse the order of the adjectives. If the sentence still makes sense, use commas.
**That/which** Use *that* for essential information; do not separate with a comma. Use *which* for nonessential elements; use commas to set off the clause. For example:

| The Airmen needed a uniform that was wash and wear.  
The Airmen needed new boots, which are expensive. |

How to tell the difference? If you were to remove a restrictive element from a sentence, it would significantly change its meaning. Use this rule to know which to use. In the first example above, the fact that the uniform must be wash and wear is essential to understanding the sentence. In the second, the fact that the boots are expensive is additional information; the essence of the sentence is that the Airmen need new boots.

**Commas and titles** Titles and other identifying adjectives listed after a name should be separated with commas; those listed before the name are adjectives and do not require commas.

| Chief of Staff of the Army Gen. Raymond T. Odierno visits with troops.  
Gen. Raymond T. Odierno, the chief of staff of the Army, visits with troops. |

**Commas and dates** Do not automatically separate the date from the rest of the sentence. Comma usage is determined by what precedes the date (e.g., a state or a country). Remember to put a comma after the year in a complete date unless it ends the sentence.

The aircraft carrier USS George Washington (CVN 73) conducts flight operations in the Pacific Ocean June 7, 2014. |

**Commas and quantity** Use a comma in numbers showing quantity (e.g., 1,200 troops, but 1200 hours).

**Hyphens** Use a hyphen to connect compound adjectives. A compound adjective is two terms that together act as one descriptor for a noun.

Note that the examples to the right are hyphenated only when used as compound adjectives. For example: The troops were forward deployed.

Use a hyphen to join some prefixes/suffixes and root words, such as anti-terrorism, anti-aircraft or DoD-wide.

If a unit number follows its unabbreviated name, then the name of that unit will generally be hyphenated in its abbreviated form. Some examples of unit types that are hyphenated in their abbreviated forms:

- Navy and Marine Corps squadrons (VAW-77, HMH-464, etc.)
- Marine Corps combat logistics battalions (CLB-6, etc.)
- Naval mobile construction battalions (NMCB-1, etc.)
- Navy explosive ordnance mobile units (EODMU-1, etc.)

**Examples of compound adjectives**

- Forward-deployed location
- Nuclear-powered aircraft carrier
- Fixed-wing aircraft

**Periods** Use a period when abbreviating military titles. For example: Tech. Sgt. James Cooper. Refer to Table 1, Military rank abbreviations, on pages 18 and 19 for more information. When typing copy, use only one space after the period at the end of the sentence.
Mechanics

Prefixes Refer to The Associated Press Stylebook or Webster’s New World College Dictionary for guidance on whether or not to hyphenate a word with a prefix. This section provides guidance for terms that commonly appear in DoD captions.

In most cases, prefixes join with the root word without a hyphen (see box to the right).

Hyphenate words with the prefix self-. For example: self-controlled, self-taught, self-defense.

Take off/takeoff

Two F/A-18F Super Hornet aircraft prepare to take off.

Set up/setup

U.S. Soldiers set up for a medical operation.

U.S. Soldiers review setup procedures for a medical operation.

In most cases, hyphenate if the prefix ends in a vowel and the root word begins with a vowel (de-ice, pre-existing, re-enlist).

There are a few exceptions to these rules, such as: cooperate, coordinate, pre-dawn, pre-position (meaning to position personnel and equipment before acting), pre-deployment, counter improvised explosive device and multi-Service.

Suffixes Refer to The Associated Press Stylebook or Webster’s New World College Dictionary for guidance on whether or not to hyphenate a word with a suffix.

In general, adjectives with the suffix -wide are one word.

For example: basewide, not base-wide or base wide.

When attaching the suffix to an acronym, use a hyphen, as in DoD-wide.

Compound words Several terms can be either one or two words, depending on the use. In most cases, when used as a verb, they are two words, and when used as a noun or an adjective, they are one word. These rules apply to several other common terms, such as stand down/standdown; line up/lineup; take out/takeout.

The terms onload and offload are one word in all cases. However, the words are jargon, so use load or unload instead whenever possible.

The terms check-in and checkout are treated differently. Use check-in as a noun and adjective, check in as a verb. Use checkout as a noun and adjective, but check out as a verb.

Capitalization

U.S. and foreign military Capitalize service branch names when referring to U.S. forces; do not capitalize when referring to foreign military. For instance, it is U.S. Army, but British army; Iraqi police, not Iraqi Police.

Capitalize the proper names of foreign military branches: British Royal Air Force, not British Royal air force. However, in accordance with the rule above, the common noun would be British air force. In the same vein, it is Afghan National Army, or Afghan army.

Capitalize Soldier, Sailor, Airman, Marine and Coast Guardsman when referring to U.S. forces (U.S. Soldiers, but Dutch soldiers). However, cadet and midshipman are ranks, so capitalize them only when they’re used
before a name.

Do not capitalize airman or airmen when referring to unnamed Navy personnel; in that case, the term is part of a generic rank/rate. (e.g., U.S. Navy airmen stand in formation.) However, when it’s used as part of a Sailor’s rating, it is capitalized. (e.g., U.S. Navy Aviation Ordnanceman Airman John Smith salutes an officer.)

Capitalize a rank or title (such as commanding officer) when it precedes a name; use lowercase when it follows a name, is set off by commas or stands alone.

Capitalizing a rank or title when it follows a name, is set off by commas or stands alone.

Proper nouns A proper noun names a particular person, place or thing. Capitalize all proper nouns, to include names of people, organizations, operations and exercises (e.g., Sgt. Sharon Anderson, Department of Defense, New Dawn, Cobra Gold).

Common nouns A common noun names categories of persons, places or things.

Incorrect: They were overrun by Security Forces during an Operational Readiness Exercise.
Correct: They were overrun by security forces during an operational readiness exercise.

Incorrect: The Female Engagement Team leaders met with the new members of the Provincial Reconstruction Team.
Correct: The female engagement team leaders met with the new members of the provincial reconstruction team.

Capitalize common nouns only if they are part of a proper noun, such as a title or an organization (e.g., U.S. Embassy, Operation New Dawn).

A general rule is if there is more than one of something, do not capitalize.

All caps Do not use all capital letters for anything but acronyms. Ship names, release status and other terms should all be regular text. For example:

The hospital ship USNS Comfort (T-AH 20) moors off the coast of El Salvador Nov. 5, 2011. The ship was on a four-month humanitarian mission. (U.S. Navy photo by Mass Communication Specialist 1st Class John Smith/Released)

Incorrect: Forward Operating Base (FOB)
Correct: forward operating base (FOB)
Correct: Forward Operating Base (FOB) Walton

Acronyms Acronyms are capitalized, but the terms to which they refer are only capitalized if they are proper nouns. Do not capitalize a term solely because it is assigned an acronym.
Chapter 8
Manipulation and alteration policies and disclosure

The Department of Defense has a responsibility to maintain complete credibility when sharing information with the American people, and that extends to ensuring DoD imagery meets or exceeds the highest ethical standards used by the DoD and the news industry.

As imagery technology continues to advance, it is imperative that DoD photographers maintain the highest ethical standards by presenting images that accurately depict a scene and subject as seen by the eye and recorded in the camera. Photographers must acknowledge any manipulations beyond acceptable photojournalistic practices (e.g., standard color correction, brightness, contrast and cropping).

DoD Instruction 5040.02, Enclosure 10, Section 4 states, in part, “The undisclosed modification or enhancement of official DoD imagery by persons acting for or on behalf of the DoD is prohibited. Any and all image modification or enhancement for any purpose must be disclosed in the caption data so that the image does not mislead or deceive.”

EXCEPTIONS: Standard color and contrast adjustments do not need to be disclosed. Occasionally, there will be images that show Personally Identifiable Information (PII), such as identification tags or access badges. It is permissible to obscure such information using digital means, as long as it is made clear within the caption of the image that portions of the image were blurred for security or privacy concerns.

There are numerous ways to manipulate an image in a darkroom or using digital means; while the end product may accurately represent a theme or subject, it’s still not what was seen by the camera eye at the time the shutter was clicked.

The responsibility lies with the photographer — and anyone else involved in the processing of an image — to disclose manipulations above and beyond standard color adjustments.

Rule of thumb: If you think you need to disclose manipulation techniques used on an image, do so.

Here are several general categories of disclosable manipulations above and beyond the realm of standard color and contrast adjustments:

Photo illustrations and alterations
Photo illustrations are images that have been manipulated beyond acceptable corrections for color, lighting, darkening or cropping, whether for aesthetic, artistic or other purposes such as highlighting a theme. Photo illustrations also include images that have been retouched, filtered or are manipulated in any other way; images that are stitched together or contain cutouts, collages, panoramas, frames or added text/graphics are considered photo illustrations. The movement or addition of any content or elements within the image must be fully disclosed.

High Dynamic Range (HDR) photography is a fairly new technique where multiple images are recorded of the same scene, exposing for different details within the image. The images are then composited to produce an image that has increased dynamic range that approximates or exceeds that seen by the human eye. While HDR imagery can be visually stunning, it is a form of manipulation, and must be disclosed accordingly. NOTE: Each component image of an HDR image also shall be sent to DIMOC simultaneously with the HDR image, if the camera allows for it (some newer cameras automatically save the various exposures as a single image file).

There are a wide range of applications, or “apps,” for iPhones and other electronic devices that allow a shooter to take an image and automatically filter it to resemble, for example, an older Polaroid, Kodachrome or sepia-toned shot. Although it usually requires little or no added effort from the photographer, the saved image is fundamentally altered from what the camera actually recorded. The use of such apps must be disclosed.
Proper disclosure of manipulations

In short, if an image has been manipulated above and beyond basic color corrections, it must be labeled as such after the caption, as seen in the examples below:

Caption text. (U.S. Army photo illustration by Sgt. Terry Cummings) (This image was created using high dynamic range techniques.)

Caption text. (U.S. Air Force photo illustration by Tech. Sgt. Donny Morales) (This image was created using Instagram.)

Caption text. (U.S. Marine Corps photo illustration by Gunnery Sgt. Chris Tryon) (This image was manipulated using multiple filters, and dodging and burning techniques.)

Caption text. (U.S. Coast Guard photo illustration by Petty Officer 1st Class Megan O’Brien) (This image was manipulated by adding a unit logo to the upper left hand of the frame.)

Caption text. (DoD photo illustration by William F. Morgan) (This image was manipulated by adding text at the top and bottom of the image.)

NOTE: The disclosure also should appear in the Release Instructions field of the metadata (see page 37). This demonstrates the releasing authority is aware of the manipulations in the image being sent to DIMOC.
